F61[Detention and isolation of persons in certain circumstances

38A. (1) Where, having regard to the matters specified in subsection (2), a medical officer of health believes in good faith that—

- (a) a person is a potential source of infection, and
- (b) the person is a potential risk to public health, and
- (c) his or her detention and isolation is appropriate in order to—
 - (i) prevent, limit, minimise or slow the spread of Covid-19, and
 - (ii) minimise the risk to human life and public health,
- and
- (d) such person cannot be effectively isolated, refuses to remain or appears unlikely to remain in his or her home or other accommodation arranged, or agreed, by the Health Service Executive,

the officer may in writing order the detention and isolation of such person in a hospital or other place specified in the order (including such other hospital or other place as may subsequently be appropriate and specified in the order) until such time

as the medical officer certifies that the person's detention is no longer required for the purposes of this section.

(2) For the purposes of subsection (1), a medical officer of health shall have regard to the following:

- (a) the need to act expeditiously in order to prevent, limit, minimize or slow the spread of Covid-19;
- (b) the resources of the health services including the number of health care workers available at a given time, the capacity of those workers to undertake measures, the necessity to take such measures as are appropriate to protect health care workers from infection from Covid-19, and the capacity of hospitals or other institutions to accommodate and facilitate the provision of treatment of infected persons;
- (c) the policies and objectives of the Government to protect human life and public health for the purpose of preventing, limiting, minimising or slowing the spread of Covid-19, (including the spread outside the State);
- (d) the fact that Covid-19 is recently declared by the World Health Organisation to be a pandemic and any relevant guidance (including, in particular, any guidance relating to the risk assessment for, and case definition relating to, Covid-19) provided by the World Health Organisation, the European Centre for Disease Prevention and Control or the Health Protection Surveillance Centre of the Health Service Executive;
- (e) the advice of any other public health officials with relevant medical and scientific expertise.

(3) An order made under subsection (1) shall be of no effect unless the medical officer of health has certified his or her opinion as to the matters referred to in that subsection.

(4) A medical officer of health who makes an order under subsection (1) shall keep the detention order under review and ensure that a medical examination of the person who is the subject of the order is carried out as soon as possible and in any event no later than 14 days from the time the person has been detained.

(5) A person who is the subject of an order under subsection (1) may request that his or her detention be reviewed by a medical officer of health, other than the officer who makes the order concerned, on the grounds that he or she is not a potential source of infection.

(6) Where a request is made by a person under subsection (5), his or her detention shall be reviewed as soon as practicable and, where a medical officer of health who carries out the review considers that the person is not, at time of review concerned, a potential source of infection, the medical officer shall certify that the person is no longer required to be detained for the purposes of the section and the person shall be discharged accordingly.

(7) Subject to the requirements in relation to medical examination and the period of detention specified in subsection (4) —

- (a) the provisions of subsections (2) (a) to (g), (3) and (4) of section 38 shall with any necessary modification apply to a person who is subject to detention and isolation under the provisions of this section, and
- (b) the provisions of subsection (5) of section 38 shall with any necessary modification apply to a person who—
 - (i) prevents or attempts to prevent the detention, or the bringing to a hospital or other place, of any person who is subject to detention and isolation under the provisions of this section,

(ii) assists in an escape or an attempted escape of any person who is subject to detention and isolation under the provisions of this section, or

(iii) obstructs or interferes with the exercise of any power conferred by this section.

(8) A person who is guilty of an offence under this section shall, on summary conviction thereof, be liable to a class C fine or, at the discretion of the Court, to imprisonment for a term not exceeding three months or to both.

(9) The cost of the maintenance and treatment of a person to whom an order under this section relates in the hospital or other place specified in the order shall be paid by the Health Service Executive.

(10) In this section—

"potential source of infection" means, in relation to a person, a person who meets one or more of the following criteria:
