F20[the building control authority concerned may apply to the High Court or the Circuit Court for an order] requiring the removal, alteration or making safe of any structure, service, fitting or equipment, or the discontinuance of any works or restricting or prohibiting the use of the building until the removal, alteration, or making safe of any structures, services, fittings or equipment or the discontinuance of any works, as the case may be, has been effected.

(c) The Circuit Court may, for the purposes of *paragraph (b)*, in relation to land that has not been given a market value or is the subject with other land of a market value, determine that its market value would exceed, or would not exceed, €3,000,000.

(d) Where the market value of any land which is the subject of an application under this section exceeds €3,000,000, the Circuit Court shall, if an application is made to it in that behalf by any person having an interest in the proceedings, transfer the proceedings to the High Court, but any order made or act done in the course of such proceedings before the transfer shall be valid unless discharged or varied by the High Court by order.

(e) In this subsection "market value" means, in relation to land, the price that would have been obtained in respect of the unencumbered fee simple were the land to have been sold on the open market, in the year immediately preceding the bringing of the proceedings concerned, in such manner and subject to such conditions as might reasonably be calculated to have resulted in the vendor obtaining the best price for the land.]

Power to prohibit the use of certain materials etc.

13.—(1) The Minister may by order prohibit the use of such materials or classes of materials, or such form of construction or such type of equipment, fittings or services in relation to such class or classes of buildings or to such class or classes of works as may be specified in the order, if he is satisfied that such use would be a danger to public health or safety or that such use would contravene any provision of building regulations.
