EXPLANATORY NOTE

(This note is not part of the Instrument and does not purport to be a legal interpretation).

These Regulations prescribe a minimum level of cover to be provided under health insurance contracts. They set out payments and periods applicable to the minimum level of benefits as regards hospital in-patient, day-patient and out-patient services and medical consultants' fees. They also set out minimum benefits applicable to maternity, convalescence and treatment for substance abuse. Provision is made for insurance undertakings to determine whether benefits are appropriate for payment as in-patient, day-patient or out-patient services. There are also excesses specified in relation to payment of benefit in respect of out-patient services. The Regulations set out the conditions relating to the payment of minimum benefit during waiting periods relating to first entry to health insurance and to pre-existing conditions. They provide for registered undertakings to specify health service providers who will make available health services for the purposes of payment of benefits under the Regulations. There are also a number of miscellaneous provisions.
