- (b) in respect of the conviction on indictment of any other person of such an offence, not be greater than €500,000.

(7) If the Minister considers it necessary to do so for the purpose of giving full effect to a provision of the treaties governing the European Communities, or to an act, or provision of an act, adopted by an institution of those Communities, the Minister may, in regulations under *subsection (1), (2) or (3)*, provide—

- (a) for the High Court, on application by the Commission or some other person specified in the regulations, to make—
 - (i) an order requiring a specified person, or a person belonging to a specified class, to comply with an obligation imposed by or under the regulations, or
 - (ii) an order restraining such a person from continuing to contravene a prohibition or restriction specified in or under the regulations,and

(b) for the High Court, on being satisfied that such a person has failed to comply with such an obligation, or has contravened such a prohibition or restriction, to order the person to pay a financial penalty of such amount as the Court considers appropriate, having regard to the circumstances of the failure to comply or contravention, including—

- (i) the duration of the failure to comply or the contravention,
- (ii) the effect of the failure to comply or contravention on consumers or users of the service or product provided or supplied by the person and on the person's competitors,

However, if the regulations concerned provide for a person to be tried summarily for further offences that are alleged to have been committed on successive days, then, irrespective of anything to the contrary in the regulations concerned, the maximum fine that can be imposed for those offences under those regulations is €5,000.

(9) Section 2 of the Ministers and Secretaries (Amendment) (No. 2) Act 1977 does not apply to a power to make regulations for a purpose referred to in *subsection (1), (2) or (3)*.

F147[Opening of public road for establishment of underground electronic communications infrastructure.

53.— (1) A network operator shall not commence or carry out or cause to be commenced or carried out any roadworks unless—

(a) the operator—

(i) has obtained the prior written consent under *subsection (3)* of—

(I) in the case of a national road, the NRA, or

(II) in the case of any regional or local road, the road authority, in whose functional area the operator proposes to carry out the roadworks,

or

(ii) is deemed to have been granted consent under *subsection (4)*, where the roadworks are emergency roadworks **F148**[or under *subsection (4A)* where that subsection applies],

or

(b) the network operator or any person engaged by the network operator complies with any conditions contained in the consent.

(2) A network operator or a person engaged by the network operator who contravenes *subsection (1)* commits an offence and is liable—

(a) on summary conviction, to a fine not exceeding €5,000, or

(b) on conviction on indictment, to a fine not exceeding €1,000,000.

(3) Subject to this section and any regulations under *section 56(2)*—

(a) the NRA, following consultation, not exceeding 21 days, with the road authority in whose functional area the national road exists, may grant consent to a network operator, upon application to it by the operator, to carry out roadworks on a national road, or

(b) a road authority may grant consent to a network operator, upon application to it by the operator, to carry out roadworks on a regional road or local road in the functional area of the road authority,

for the purposes of—

(i) establishing underground electronic communications infrastructure and any associated physical infrastructure,

(ii) extending the underground electronic communications network to parts of the road under which electronic communications infrastructure has not previously been placed by that network operator,

(iii) carrying out roadworks on underground electronic communications infrastructure, being maintenance, repair, replacement or the addition or removal of underground electronic communications infrastructure, or

(iv) installing electronic communications infrastructure in ducts, which are the responsibility of an authority, on public roads,

subject to any conditions contained in the consent.

(4) Subject to regulations made in respect of emergency roadworks under *section 56(2)*, a consent shall be deemed to be granted where the proposed roadworks are emergency roadworks, subject to any conditions the authority concerned may decide

while the emergency roadworks are in progress or completed. The network operator shall inform the authority concerned as soon as is practicable in advance of the commencement of those roadworks.

F149[(4A)(a) Subject to this subsection—

- (i) where an application is made to an authority by a network operator under this section to carry out roadworks and the authority fails to make a decision in respect of the application within the period of 4 months commencing on the date of receipt of the application, consent is deemed to be granted to the network operator on the day following the expiration of that period of 4 months to carry out the roadworks, and
- (ii) where the authority has requested additional information from the applicant regarding the application and the authority fails to make a decision in respect of the application within the period of 4 months from the date on which it receives the applicant's response to the request, consent shall be deemed to have been granted on the day following the expiration of that period of 4 months to carry out the roadworks.

(b) A deemed decision to grant consent under this subsection shall be subject to the conditions that—

- (i) in advance of the commencement of those roadworks the network operator concerned informs the authority concerned, and
- (ii) the network operator concerned complies with any conditions the authority concerned may decide while the roadworks are in progress or completed.

(c) This subsection does not apply in respect of an application where—

- (b) shall be consistent with the need for the authority to carry out its functions under this Part and under the Roads Acts 1993 to 2007 and the Road Traffic Acts 1961 to 2007.

(6) Where an authority proposes to grant consent to a network operator under *subsection (3)* or a consent is granted under *subsection (4)* F150[or (4A)], the consent may contain conditions which, without prejudice to any other conditions it proposes to impose on the network operator, may—

- (a) provide that network operators meet any losses, liabilities and costs suffered or incurred by the authority, under contractual arrangements with a third party, where such losses, liabilities and costs arise as a result of any act undertaken by the network operator, under F151[section 53(3), (4) or (4A)], in relation to electronic communications infrastructure,

(b) where ducts on national roads are provided and made available by an authority to a network operator, provide that the authority shall not be liable to that network operator for any loss or damage howsoever caused to the electronic communications infrastructure in those ducts, which is the property of the network operator except for such loss or damage caused by the wilful act or gross negligence of the authority or its agents acting on its behalf, and

(c) provide that the authority may have representatives present at work sites for the purpose of determining compliance with any conditions imposed in connection with any act undertaken by the network operator, under a consent issued under F151[*section 53(3), (4) or (4A)*], in relation to electronic communications infrastructure.

(7) An authority granting consent shall notify the network operator, in writing, of the reason for any conditions contained in the consent.

(8) The NRA, in the case of a national road, following consultation, not exceeding 21 days, with a road authority in whose functional area the national road exists, or a road authority, in the case of regional and local roads in its functional area, may, subject to any regulations under *section 56(2)*, impose charges on network operators—

(a) for the grant of consents to cover the administrative costs, including costs involved in monitoring compliance with consents, incurred by the authority under this section, and

(b) for reasonable costs it may incur in making good long term damage to a public road as a result of road openings carried out by the network operator.

(9) The NRA, may in the case of national roads, make a scheme which will allow for the NRA to impose charges for the use of ducts, which are provided and made available on those roads by an authority to a network operator, subject to the approval of the Minister for Transport following consultation with the Minister and the Minister for Finance.

(10) When considering an application for a consent, an authority shall have regard to—

(13) An authority shall consult with the Commission before attaching a condition to a consent it proposes to grant requiring the applicant to lay additional ducts.

(14) Where the holder of a consent fails to comply with any condition attached to a consent, the authority which granted the consent may withdraw the consent.

(15) Where an authority proposes—

- (a) to refuse to grant consent,
- (b) to grant consent subject to conditions, or
- (c) to withdraw a consent granted by it,

the authority shall notify the network operator concerned in writing of the proposal and shall include in the notification a statement of the reasons for the proposal and of the right of the network operator to make representations to the authority under *subsection (16)*.

(16) A network operator may, within 21 days of the receipt by the operator of a notification under *subsection (15)*, make representations to the authority concerned in relation to the proposal.

(17) Where an authority—

- (a) after consideration of any representations made to it by a network operator under *subsection (16)*, or

decides—

- (i) to refuse to grant consent,
- (ii) to grant consent subject to conditions, or
- (iii) to withdraw its consent,

the authority shall, not more than 21 days after the expiration of the period specified in *subsection (16)*, notify the network operator in writing of its decision and shall include in the notification a statement of the reasons for the decision and of the right of the network operator to appeal the decision under *subsection (18)*.

(18) A network operator may, within 28 days of the receipt by the operator of a notification under *subsection (17)*, appeal to the High Court against the decision concerned and the Court may—

- (a) confirm the decision,
- (b) amend the decision, or
- (c) direct the authority to grant the consent or refrain from withdrawing consent, as the case may be.

(19) A network operator shall be responsible for all costs incurred in the reinstatement of a road which the operator has opened for the purpose of—

- (a) the establishment of underground electronic communications infrastructure, or
- (b) maintenance, repair, replacement or the addition or removal of underground electronic communications infrastructure,

to a standard satisfactory to the authority concerned.

(20) The requirement to hold a licence under section 254 of the Act of 2000 in respect of *subsection (1)(e)* of that section does not apply where a network operator has been granted a consent.

(21) A network operator shall, on a request being made by an authority, provide among other things—

- (a) such information as the authority may require in relation to the utilisation of underground electronic communications infrastructure owned or operated by the operator, and

(22) An authority may apply to the High Court for an order—

- (a) by way of injunction, to prohibit any non-compliance, or
- (b) by way of *mandamus*, to direct any compliance,

with a requirement of this section or the conditions of consent. The Court may grant such order as it sees fit.

(23) This section is without prejudice to section 101D (inserted by the Dublin Transport Authority (Dissolution) Act 1987) of the Road Traffic Act 1961 (which relates to directions given by local authorities to persons carrying out roadworks).

(24) A summary offence under *subsection (2)* may be prosecuted by—

- (a) where the offence relates to a national road, the NRA or the road authority in whose functional area the offence is committed, or
- (b) where the offence relates to a regional or local road, the road authority within whose functional area the offence is committed.]

Use of public road for establishment of electronic communications infrastructure overground.

54.—(1) Section 254(1) of the Act of 2000 is amended by inserting after paragraph (e) the following paragraph:

“(ee) overground electronic communications infrastructure and any associated physical infrastructure,”.

(2) A network operator shall be responsible for all costs incurred in the reinstatement of a road to a standard satisfactory to the road authority concerned arising from the opening of the road by the operator for the purpose of—

- (a) the establishment of overground electronic communications infrastructure, or
- (b) maintenance, repair, replacement or the addition or removal of overground electronic communications equipment.

(3) This section is without prejudice to section 101D of the Road Traffic Act, 1961.

F152[Cost apportionment for electronic communications infrastructure relocation due to road improvements.

55.— (1) Notwithstanding section 254(4) of the Act of 2000 and subject to this section, where an authority undertakes work for the purposes of improving a public road, it shall pay to a network operator all reasonable costs incurred by the operator in the relocation (except in relation to the relocation of ducts as referred to in *subsection (2)*) of its electronic communications infrastructure and any associated physical infrastructure necessitated by and directly attributable to that work.

(2) Where ducts, which are provided and made available on a national road by an authority for use by network operators, are required to be moved arising from any works undertaken by an authority to improve the road, then—

- (a) the authority shall only cover the costs of relocating the ducts, necessitated and directly attributable to that work,
- (b) the network operator or network operators using those ducts shall be responsible for any costs incurred by the operator in the relocation of its electronic communications infrastructure in those ducts necessitated by and directly attributable to that work, and
- (c) the NRA shall provide reasonable notice of the roadworks to the network operator concerned.

(3) Where a network operator makes an application for consent under *section 53(3)*, the NRA shall, where it proposes to grant consent to the network operator in respect of the application, inform the network operator of the responsibility imposed on the network operator for relocation costs incurred by the network operator referred to in *subsection (2)(b)*.

(4) Where electronic communications infrastructure and any associated physical infrastructure is replaced or improved by a network operator in the course of relocation due to road improvement, the authority concerned shall pay only the costs directly attributable to work done to electronic communications infrastructure and any associated physical infrastructure as a result of roadworks which would have been incurred if the electronic communications infrastructure and any associated physical infrastructure existing immediately before the road improvement had been relocated.

(5) A network operator shall be responsible to an authority for any costs incurred by the authority where the network operator fails to carry out the relocation of its electronic communications infrastructure in a safe, expeditious and efficient manner.

(6) Where an authority, on an application to it by a network operator to carry out roadworks over, along, on (under section 254 of the Act of 2000) or under (under *section 53*) a public road, gives the operator notice that the road is due to be improved by the authority within the period of 2 years of the date from which the operator intends to carry out the works, the authority shall not be responsible for the cost of relocating electronic communications infrastructure or anything connected with the works where the road improvement proceeds within that period.

(7) Where a dispute or difference arises between a network operator and an authority in respect of the cost of the relocation of electronic communications

infrastructure, the dispute or difference shall be determined by agreed conciliation procedures between both parties or, in default of such agreement, by arbitration under the Arbitration Acts 1954 to 1998.]

F153 [Regulations and policy directions to authorities.

56.— (1) The Minister may, with the consent of the Minister for Transport, for the purposes of *sections 54(2) and 55*, make regulations to establish the basis for the calculation by a network operator of costs reasonably attributable to costs incurred by the network operator as a result of roadworks, and to establish an objective measure of works to be deemed to be improvements to electronic communications infrastructure for the purposes of this Part.

(2) The Minister for Transport may, with the consent of the Minister, for the purposes of *section 53* make regulations, in relation to—

- (a) any conditions, restrictions or requirements to be made in a consent,
- (b) the imposition of charges by authorities,
- (c) anything to be contained in schemes under *section 53(11)*, and
- (d) emergency roadworks.

(3) The Minister for Transport after consultation with the Minister, may, subject to any regulations under this section, issue policy directions to authorities in connection with the exercise of the powers of authorities under this Part.]

Physical infrastructure sharing by infrastructure providers.

57.—(1) This section applies to that part of the infrastructure of a physical infrastructure provider which is used to support electronic communications infrastructure and to no other part of the infrastructure.

(2) A network operator has the right to negotiate an agreement to share physical infrastructure with other infrastructure providers and may, upon the commencement of any negotiations, serve notice on the Commission of such negotiations.

(3) The Commission may, on its own initiative, or shall, if so requested by either party, specify the period within which negotiations on physical infrastructure sharing shall be completed.

(4) Where agreement is not reached within the period specified by the Commission under *subsection (3)*, the Commission shall take such steps as are necessary to resolve the dispute in accordance with the procedures referred to in *subsection (6)*.

(5) With regard to any intervention by the Commission referred to in *subsection (3) or (4)*, the Commission may—

- (a) having carried out a preliminary examination of the matter, decide not to intervene in those negotiations, or
- (b) discontinue the intervention in those negotiations where the Commission considers that—
 - (i) the request for intervention is trivial or vexatious, or
 - (ii) the person making the request has not taken reasonable steps to reach an agreement on physical infrastructure sharing.

(6) The Commission shall resolve a dispute referred to in *subsection (4)* in accordance with procedures established and maintained by it and the procedures shall be made available, on a request being made for that purpose, to interested parties free of charge.

(7) In making a decision in relation to a dispute, the Commission may impose conditions for physical infrastructure sharing and such conditions may include, but not necessarily be limited to—

- (a) conditions in respect of conformity with the relevant standards relating to establishment, operation, maintenance and repair of electronic communications infrastructure and physical infrastructure,
- (b) compliance with essential requirements or the maintenance of the quality of electronic communications services or both, or
- (c) rules for the apportionment of the costs of physical infrastructure sharing,

and the Commission shall notify, in writing, the network operator and physical infrastructure provider, as appropriate, of the reasons for such conditions.

(8) The procedures referred to in *subsection (6)* shall include provisions for public consultation during which all interested parties shall be given an opportunity to express their views.

(9) The Commission, in reaching a decision pursuant to the procedures referred to in *subsection (6)*, shall take into account, *inter alia*—

- (a) the interests of consumers of electronic communications services,
- (b) any requirements imposed by an enactment or instrument made thereunder,
- (c) the public interest, including traffic control and the protection of the environment and of amenities,
- (d) the desirability of encouraging the sharing of electronic communications infrastructure,
- (e) the provision of electronic communications services that are not available at the time of the making of the conditions,
- (f) the availability of alternatives to the physical infrastructure sharing requested,
- (g) the need to provide access to the market for electronic communications services to network operators,
- (h) the need to maintain the security of electronic communications networks and the ability of providers of electronic communications services to use different types of electronic communications infrastructure and physical infrastructure,
- (i) the nature of the request in relation to the resources available to the network operator or physical infrastructure provider concerned to meet that request,
- (j) the promotion of competition between electronic communications services providers, and
- (k) the need to maintain a universal service.

(10) In this section, “universal service” means the services which are made available, in accordance with the European Communities (Voice Telephony and Universal Service) Regulations 1999 (S.I. No. 71 of 1999) or any regulations amending or replacing those Regulations, to all consumers of electronic communications services independent of their geographical location.

F154[Power of High Court to make compliance orders in respect of conditions imposed under section 57.

57A.— (1) If, in making a decision under *section 57*, the Commission has imposed conditions for infrastructure sharing, and it appears to the Commission that a network operator or physical infrastructure provider to whom the decision relates is failing, or has failed, to comply with any of those conditions, the Commission may apply to the High Court to make a compliance order under *subsection (5)*. Such an application is to be by motion.

(2) However, the Commission may make an application under *subsection (1)* only if—

(a) at least one month previously, it has served on the network operator or physical infrastructure provider concerned a notice in writing requiring the operator or provider to comply with a condition imposed by it under *section 57* and has given the operator or provider an opportunity to make representations to it about the matter and to comply with the requirement, and

(b) the operator or provider has failed to comply with the requirement.

(3) The High Court may hear the application only if it is satisfied that the Commission has complied with *subsection (2)(a)* and has served a copy of the application on the network operator or physical infrastructure provider concerned. On being served with a copy of the application, that network operator or physical infrastructure provider becomes the respondent to the application.

(4) The High Court may make such interim or interlocutory order as it considers appropriate pending determination of an application made under *subsection (1)*. The Court may not refuse interim or interlocutory relief merely because the Commission may not suffer damage if relief were not granted pending determination of the application.

(5) On the hearing of an application made under *subsection (1)*, the High Court may make an order requiring the respondent to comply with the relevant section or may refuse the application.

(6) An application for a compliance order may include or be accompanied by a further application for an order directing the respondent to pay to the Commission a financial penalty of such amount as is proposed by the Commission having regard to the circumstances of the non-compliance.

(7) On hearing the further application, the High Court may, having previously been satisfied that the respondent has not complied with a condition imposed under *section 57* and having regard to the circumstances surrounding the non-compliance, order the respondent to pay to the Commission a financial penalty of such amount as is specified in the order. The amount can be more or less than the amount proposed by the Commission.

(8) The circumstances referred to in *subsection (7)* include (but are not limited to) the following:

(a) the duration of the non-compliance;

F155[(b) the effect of the non-compliance on other parties to the relevant decision, to end-users and to end-users of premium rate services.]

(c) the submission of the Commission with respect to what it considers to be the appropriate amount;

(d) any excuse or explanation for the non-compliance provided by the respondent.

(9) If the High Court makes an order under this section, it may make such ancillary orders as it considers appropriate.]

Lopping of trees. **58.**—(1) Subject to this section, a network operator, or any person authorised by him or her in that behalf, may lop or cut any tree, shrub or hedge which obstructs or interferes with any physical infrastructure of the network operator.

(2) Before lopping or cutting any tree, shrub or hedge under this section, a network operator shall give to the landowner or occupier of the land on which the tree, shrub or hedge is standing, notice in writing of its intention to do so and, after the expiration of 28 days from the date of such service, the network operator may lop or cut any tree, shrub or hedge where the landowner or occupier has not already done so.

(3) A network operator may, upon the expiration of the period contained in the notice served by the operator under *subsection (2)*, enter the land (with or without vehicles) at any reasonable time.

(4) Where a network operator carries out the cutting or lopping referred to in *subsection (1)*, he or she shall do so in a manner which causes the least damage to property or the environment or amenities.

(5) Where an occupier or landowner lops or cuts any tree, shrub or hedge under *subsection (2)*, the expense incurred by him or her in so doing shall be paid to him or her on demand by the network operator and the amount of such expenses shall be recoverable from the network operator, in default of agreement, as a simple contract debt in any court of competent jurisdiction.

(6) A network operator shall not carry out the cutting or lopping of trees in contravention of an order under section 205 (which relates to the preservation of trees, a group of trees or woodlands) of the Act of 2000.

(7) *Subsection (1)* does not apply to any obstruction of or interference with signals transmitted by means of the radio frequency spectrum.

"current operator", in relation to the emergency call answering service operating at the commencement of this section, means Eircom plc;

"payment period" means the period beginning with the date on which an order made under *subsection (2)* takes effect and ending with—

(a) the date (as publicly notified by the Minister) on which a contract entered into under *section 58B* becomes fully effective, or

(b) the day that falls 18 months after the date on which the order takes effect, or such extended period as the Minister may allow,

whichever first occurs.

(2) The Commission may, by notice published in the *Iris Oifigiúil*, fix the amount of the call handling fee payable under *subsection (5)*, and may from time to time, by similar order, vary the amount of that fee. In fixing the amount of the fee, the Commission shall take into account the need to ensure the effectiveness and efficiency of the operator of the service.

(3) An order made under *subsection (2)* ceases to have effect at the end of the payment period.

(4) Before making an order under *subsection (2)* (including an order varying the call handling fee), the Commission shall convene one or more meetings to which it must invite all undertakings that carry on business in the State and such users of electronic communications services as it thinks appropriate.

(5) During the payment period, each entity that forwards emergency calls to the current operator during a month or part of a month that falls during that period, shall, within 45 days after the end of that month, pay to that operator for each of those calls a call fee fixed in accordance with *subsection (2)*.

(6) If call handling fees are not paid by the deadline fixed for payment, the current operator may, by proceedings brought in a court of competent jurisdiction, recover as a debt due to that operator any amount of fees that remain outstanding.

(7) A call handling fee is payable in respect of an emergency call even if the call is not forwarded to the emergency service concerned.

(8) To enable the Minister to award and enter into an ECAS contract, the current operator shall, so far as it is able to do so, provide the Minister with such co-operation and assistance as the Minister reasonably requires in writing.

(9) If it appears to the Minister that the current operator is failing to provide the level of co-operation and assistance required under *subsection (8)*, the Minister may apply to the High Court to make a compliance order under *subsection (12)*. Such an application is to be by motion.

(10) The High Court may hear the application only if it is satisfied that a copy of the application has been served on the current operator. On being served with such a copy, the current operator becomes the respondent to the application.

(11) The High Court may make such interim or interlocutory order as it considers appropriate pending determination of an application made under *subsection (9)*. The Court may not refuse interim or interlocutory relief merely because the Minister may not suffer damage if relief were not granted pending determination of the application.

(12) On the hearing of an application made under *subsection (9)*, the High Court may make an order requiring the current operator to comply with the relevant requirements or may refuse the application.

(13) If the High Court makes an order under *subsection (12)*, it may make such ancillary orders as it considers appropriate.]
