intimate sample taken from the person during the period of detention proves to be insufficient or is inadequately labelled,

a second sample under *section 11* or a second intimate sample or non-intimate sample, as the case may be, may be taken from the person in accordance with this Part while he or she is so detained only if, subject to *subsection (2)* and *section 3(6)*, an authorisation to take the second sample is given under *section 11(2)*, *12(2)(a)* or *13(2)*, as the case may be.

(2) An authorisation under *section 11(2)*, *12(2)(a)* or *13(2)*, as the case may be, to take a second sample from a person referred to in *subsection (1)* may be given on one occasion only during a period of detention of the person under any of the provisions referred to in *section 9(1)*.

(3) Where—

(a) a non-intimate sample is taken from a person who is detained under any of the provisions referred to in *section 9(1)*,

(b) the person is released without any charge having been made against him or her, and

(c) the sample proves to be insufficient or is inadequately labelled,

a second non-intimate sample may be taken from the person in accordance with this Part only if—

(i) a member of the Garda Síochána not below the rank of superintendent authorises it to be taken, and

(ii) the person attends at a Garda Síochána station in accordance with this section for the purpose of having the second non-intimate sample taken from him or her.

(4) An authorisation under *paragraph (i)* of *subsection (3)* to take a second non-intimate sample from a person in accordance with that subsection shall not be given unless the member of the Garda Síochána giving it has reasonable grounds—

(a) for suspecting the involvement of the person from whom the first non-intimate sample concerned was taken in the offence in respect of which he or she was detained when that sample was taken, and

(b) for believing that a second non-intimate sample will tend to confirm or disprove the involvement of that person in that offence.

(5) An authorisation under *paragraph (i)* of *subsection (3)* to take a second non-intimate sample from a person in accordance with that subsection—

(a) may be given on one occasion only, and

(b) may not be given if a period of more than 6 months has elapsed since the first non-intimate sample concerned was taken from the person.

(6) If an authorisation under *subsection (3)(i)* to take a second non-intimate sample from a person has been given, a member of the Garda Síochána may, within the period specified in *subsection (7)*, require the person by notice in writing to attend at a specified Garda Síochána station within the period specified in *subsection (9)(a)* for the purpose of having a second non-intimate sample taken from him or her.

(7) The period referred to in *subsection (6)* for requiring the person concerned to attend at a specified Garda Síochána station is one month from the date on which a member of the Garda Síochána of the rank of superintendent in the Garda Síochána district in which the first non-intimate sample

concerned was taken is informed of the fact that that sample has proved to be insufficient or was inadequately labelled, as the case may be.

- (8) A notice under *subsection (6)* shall, in the case of a protected person or child, also be sent to a parent or guardian of the person or child, as the case may be.
- (9) A notice under *subsection (6)* shall state that the first non-intimate sample concerned taken from the person concerned has proved to be insufficient or was inadequately labelled, as may be appropriate, and a requirement in the notice to attend at a specified Garda Síochána station—
- (a) shall give the person concerned a period of not less than 10 working days within which he or she shall so attend, and
- (b) may direct the person concerned to so attend on specified days and at a specified time of day or between specified times of day.
- (10) If the person concerned fails or refuses without reasonable cause to comply with a notice under *subsection (6)*, a member of the Garda Síochána not below the rank of superintendent may apply to a judge of the District Court for a warrant for the arrest of the person and his or her detention in a Garda Síochána station for the purpose of having a second non-intimate sample taken from him or her.

- (12) If a warrant for the arrest and detention of a person is issued under *subsection (11)* for the purpose of having a second non-intimate sample taken from the person, the sample shall be taken from him or her in accordance with this Part.
- (13) When a second non-intimate sample has been taken from a person who is detained pursuant to a warrant issued under *subsection (11)*, the person shall be released from custody forthwith unless his or her detention is authorised apart from this section.
- (14) Nothing in this section shall require the second non-intimate sample to be taken from a person under this section to be of the same type of biological material as the first sample taken from the person which proved to be insufficient or was inadequately labelled, provided that the second sample concerned is one that is permitted to be taken under *section 13*.

(15) If a second non-intimate sample is taken from a person under *subsection (1)*, the references in this section other than in that subsection—

(a) to a first non-intimate sample shall be construed as references to a second non-intimate sample, and

(b) to a second non-intimate sample shall be construed as references to a third non-intimate sample,

taken, or to be taken, from the person.

(16) A sample taken, or to be taken, from a person under this section shall, for the purposes of this Act, be regarded as if it is to be taken, or had been taken, from the person under *section 11, 12 or 13*, as may be appropriate.

(17) In this section references to the detention of a person for a period under any of the provisions referred to in *section 9(1)* shall, if appropriate, include references to the detention of the person for consecutive periods under the provision concerned.

### **TAKING OF SAMPLES FROM VOLUNTEERS TO GENERATE DNA PROFILES**

#### **Taking of samples from volunteers to generate DNA profiles**

**27. (1)** A member of the Garda Síochána or an authorised person may request a person other than a person to whom *section 11, 12, 13, 29, 31 or 32* applies (in this section and *section 28* called a “volunteer”) to have a sample taken from him or her under this section for the purpose of generating a DNA profile in respect of the volunteer in relation to—

- (a) the investigation of a particular offence, or
  - (b) the investigation of a particular incident that may have involved the commission of an offence.
- (2) A person who is a victim, or is reasonably considered to be a victim, of the offence or incident that may have involved the commission of an offence being investigated may be a volunteer.
- (3) Subject to *sections 53* and *55*, a member of the Garda Síochána or an authorised person shall inform a volunteer of the following before seeking his or her consent to the taking of a sample under this section or the member or authorised person takes, or causes to be taken, such a sample from him or her:
- (a) that the volunteer is not obliged to have the sample taken from him or her;
  - (b) in a case in which a sample already taken under this section from the volunteer has proved to be insufficient or was inadequately labelled or for any other reason mentioned in *section 30* a second or further sample is required to be taken from him or her—
    - (i) that the first-mentioned sample has proved to be insufficient, was inadequately labelled or that other reason for requiring a second or further sample under this section to be taken, as may be appropriate, and
    - (ii) that a second or further sample is, in accordance with *section 30*, to be taken from him or her;
  - (c) that the sample will be used to generate a DNA profile in respect of the volunteer for the purposes of the investigation of the offence, or incident that may have involved the commission of an offence, in relation to which it is being taken; and
  - (d) that the sample and the DNA profile generated from the sample in respect of the volunteer may be destroyed in accordance with *Part 10*.
- (4) Subject to *sections 54* and *56* a volunteer shall, before a sample is taken from him or her under this section, consent in writing to the taking of the sample and the consent shall specify the particular offence, or incident that may have involved the commission of an offence, that is being investigated to which the consent relates.
- (5) Subject to this Act, a member of the Garda Síochána or an authorised person may take, or cause to be taken, from a volunteer a sample under this section.
- (6) A sample may be taken under this section from a volunteer in a Garda Síochána station or other place nominated by a member of the Garda Síochána not below the rank of sergeant or, subject to the agreement of the member of the Garda Síochána or authorised person taking the sample, at a place designated by the volunteer.
- (7) Subject to *section 58*, if a volunteer expressly withdraws consent given under *subsection (4)* (or if the withdrawal of that consent can reasonably be inferred from the conduct of the person) before or during the taking of a sample under this section, that withdrawal of consent shall be treated as a refusal to give consent to the taking of the sample under this section.
- (8) A withdrawal under *subsection (7)* of consent given under *subsection (4)* shall be confirmed in writing as soon as practicable after such withdrawal.

- (9) A refusal of a person to give consent under *subsection (4)* shall not of itself constitute reasonable cause for a member of the Garda Síochána to suspect the person of having committed the offence concerned for the purpose of arresting and detaining him or her under any of the provisions referred to in *section 9(1)* in connection with the investigation of that offence.

#### **Entry of DNA profiles of volunteers in reference index of DNA Database System**

- 28.** (1) A member of the Garda Síochána not below the rank of sergeant may, at the time a sample is taken under *section 27* or at any time thereafter, inform a volunteer from whom the sample is being, or was, taken, other than—

- (b) the effect of the entry of the DNA profile in that index of that System; and

- (3) A volunteer referred to in *subsection (1)* shall consent in writing before his or her DNA profile may be entered in the reference index of the DNA Database System and, if he or she so consents, his or her DNA profile may be entered in that index of that System.

#### **Taking of samples for mass screening**

- 29.** (1) A sample may be taken under this section from a person who is one of a class of persons to whom an authorisation for a mass screening given under *subsection (2)* applies for the purpose of generating a DNA profile in respect of the person in relation to the investigation of a particular relevant offence.

- (2) A member of the Garda Síochána not below the rank of chief superintendent may authorise the mass screening of a class of persons in accordance with this section for the purposes of the investigation of a relevant offence if the member has reasonable grounds for believing that the mass screening of that class of persons—

- (a) is likely to further the investigation of the offence, and

- (b) is a reasonable and proportionate measure to be taken in the investigation of the offence.
- (3) A class of persons for the purposes of a mass screening may be determined by reference to one or more of the following:
  - (a) the sex of the persons;
  - (b) the age of the persons;

  - (b) the purpose of the mass screening that has been authorised;
  - (c) that the person is not obliged to have the sample taken from him or her;
  - (d) in a case in which a sample already taken under this section from the person has proved to be insufficient or was inadequately labelled or for any other reason mentioned in *section 30* a second or further sample is required to be taken from him or her—
    - (i) that the first-mentioned sample has proved to be insufficient, was inadequately labelled or that other reason for requiring a second or further sample under this section to be taken, as may be appropriate, and
    - (ii) that a second or further sample is, in accordance with *section 30*, to be taken from him or her;
  - (e) that the sample will be used to generate a DNA profile in respect of the person for the purposes of the investigation of the particular relevant offence in relation to which the sample is being taken; and
  - (f) that the sample and the DNA profile generated from the sample in respect of the person may be destroyed in accordance with *Part 10*.
- (5) Subject to *sections 54* and *56*, a person shall, before a sample is taken from him or her under this section, consent in writing to the taking of the sample and the consent shall refer to the authorisation for a mass screening concerned.

- (7) A sample may be taken under this section from a person who is one of a class of persons to whom an authorisation for a mass screening given under *subsection (2)* applies in a Garda Síochána station or other place nominated by a member of the Garda Síochána not below the rank of sergeant or, subject to the agreement of the member of the Garda Síochána or the authorised person taking the sample, at a place designated by the person from whom the sample is to be taken.
- (8) Subject to *section 58*, if a person expressly withdraws consent given under *subsection (5)* (or if the withdrawal of that consent can reasonably be inferred from the conduct of the person) before or during the taking of a sample under this section, that withdrawal of consent shall be treated as a refusal to give consent to the taking of the sample under this section.
- (9) A withdrawal under *subsection (8)* of consent given under *subsection (5)* shall be confirmed in writing as soon as practicable after such withdrawal.
- (10) A refusal of a person to give consent under *subsection (5)* shall not of itself constitute reasonable cause for a member of the Garda Síochána to suspect the person of having committed the relevant offence concerned for the purpose of arresting and detaining him or her under any of the provisions referred to in *section 9(1)* in connection with the investigation of that offence.

#### **Re-taking of samples under Part 3**

- 30. Where a sample taken from a person under *section 27* or *29* proves to be insufficient or was inadequately labelled or, for any other good reason, a member of the Garda Síochána considers that it is necessary for a second or further such sample to be taken from the person, a second or further sample may be taken from him or her in accordance with the section concerned.

(a) where proceedings for a relevant offence—

- (4) The Commissioner may, while an authorisation under *subsection (3)* or this subsection, as may be appropriate, is still in force, give an authorisation under this subsection to extend the retention period on a second or further occasion for a period of 12 months commencing on the expiration of the period of 12 months to which the authorisation previously given relates if he or she determines that one of the paragraphs of *subsection (1)* applies.
- (5) Whenever the Commissioner gives an authorisation under *subsection (3)* or *(4)*, he or she shall, in relation to an intimate sample or a non-intimate sample taken from a person that is the subject of the authorisation, cause—

**Destruction of intimate samples and non-intimate samples in exceptional circumstances**

- 78.** (1) Notwithstanding *sections 76* and *77*, if the Commissioner is satisfied that exceptional circumstances exist that justify the destruction of an intimate sample or a non-intimate sample, the sample concerned shall be destroyed as soon as practicable after the application of those circumstances in relation to that sample becomes known.
- (2) The exceptional circumstances referred to in *subsection (1)* are the following:

- (c) it is determined by a court that the detention of the person concerned under any of the provisions referred to in *section 9(1)* for the purposes of the investigation of a relevant offence during which the sample concerned was taken was unlawful.

  - (b) it is established that the detention of the person concerned under any of the provisions referred to in *section 9(1)* for the purposes of the investigation of a relevant offence during which the sample concerned was taken (from which his or her DNA profile was generated) was on the basis of the mistaken identity of the person concerned as the perpetrator of that relevant offence; or
  - (c) it is determined by a court that the detention of the person concerned under any of the provisions referred to in *section 9(1)* for the purposes of the investigation of a relevant offence during which the sample concerned was taken (from which his or her DNA profile was generated) was unlawful.

- (6) The Commissioner shall, for the purposes of determining an application under *subsection (1)*, consider in accordance with *section 33* whether the person concerned is a former offender.
- (7) The determination of the Commissioner of an application under *subsection (1)* may provide for the retention in, or the removal from, the DNA Database System of the DNA profile of the person concerned.

- (8) The Commissioner shall cause the person concerned to be informed by notice in writing of the determination and the reasons for it, the date on which it was made and of the right of appeal under *subsection (9)*.
- (9) Where the Commissioner, in relation to an application under *subsection (1)* —
- (a) refuses the application, or
  - (b) does not determine the application within the time limit specified in *subsection (5)* in which case the application shall be deemed to have been refused,
- the person concerned or, if that person is a child or a protected person, a parent or guardian on his or her behalf may, within the period of 3 months from the date of the determination or, as may be appropriate, the latest date for making a determination under *subsection (5)*, appeal to the District Court against the determination.
- (10) An appeal under *subsection (9)* shall—
- (a) be on notice to the Commissioner, and
  - (b) be heard otherwise than in public.
- (11) If, on an appeal under *subsection (9)*, the District Court—
- (a) confirms the determination concerned, or
  - (b) allows the appeal,
- the Commissioner shall ensure that effect is given to the decision of the Court.
- (12) The jurisdiction conferred on the District Court by this section shall be exercised by a judge of the District Court who is assigned to the district court district in which the person concerned resides or, if that person does not ordinarily reside in the State, by a judge of the District Court who is assigned to the district court district in which the sample concerned was taken.
- (13) The District Court may make such order as to costs as it considers appropriate on an appeal under *subsection (9)*.
- (14) Nothing in this section shall—
- (a) prevent or restrict the exercise of powers conferred by *section 34* or *39*, or
  - (b) pending the conclusion of proceedings under this section, prevent or restrict the use of the DNA profile concerned for the purposes of—
    - (i) this Act,
    - (ii) a criminal investigation, or
    - (iii) other proceedings.

**Removal of DNA profiles in respect of former child offenders from DNA Database System in certain circumstances**

84. (1) Subject to *sections 85, 86* and *93*, the DNA profile generated from a sample taken under *section 11, 12, 13* or *32* and entered in the reference index of the DNA Database System in respect of a person who was a child

offender to whom *subsection (2)* applies shall, if not previously removed, be removed from that System—

- (a) within the period of 4 years from the taking of the sample from the person if a sentence other than one of detention was imposed on the person, or
- (b) within the period of 6 years from the expiry of the sentence imposed on, or, as the case may be, the end of the notification period in relation to, the person,

in respect of the offence to which that subsection applies (in this section called the “retention period”).

- (2) This section applies to a person who was a child offender if the offence in connection with which the sample concerned was taken (from which his or her DNA profile was generated) is an offence other than—

- (a) an offence that is triable by the Central Criminal Court, or
- (b) an offence, or one of a category of offences, specified in an order made by the Minister under this subsection that are, for the purposes of this subsection, excluded from its application by reason of the nature and seriousness of such an offence or offences.

- (3) In this section—

“the end of the notification period”, in relation to a child offender who was a sex offender, means the end of the period for which he or she was subject to the requirements of Part 2 of the Sex Offenders Act 2001;

“the expiry of the sentence”, in relation to a child offender other than a sex offender, has the meaning it has in [section 32](#).

#### **DNA profiles not to be removed from DNA Database System in certain circumstances**

- 85. (1) [Section 80](#) or [84](#) shall not apply to a person if, during the retention period—

- (a) proceedings for a relevant offence (“the subsequent relevant offence”) other than the offence in connection with which the sample concerned was taken (from which his or her DNA profile was generated and entered in the reference index of the DNA Database System) have not been instituted against the person, where the failure to institute such proceedings against him or her within the retention period is due to the fact that he or she absconded or could not be found,
  - (b) proceedings for a relevant offence (“the subsequent relevant offence”) other than the offence in connection with which the sample concerned was taken (from which his or her DNA profile was generated and entered in the reference index of that System) have been instituted against the person, unless—
    - (i) the person has been acquitted of that relevant offence,
    - (ii) the charge against the person in respect of that relevant offence has been dismissed under section 4E of the Criminal Procedure Act 1967, or
    - (iii) the proceedings for that relevant offence have been discontinued,
- or

- (c) the person has been convicted of another relevant offence (“the subsequent relevant offence”) or sexual offence, unless—
  - (i) the conviction for that relevant or sexual offence, as the case may be, is quashed, or
  - (ii) the conviction for that relevant offence or sexual offence, as the case may be, is declared to be a miscarriage of justice under section 2 of the Criminal Procedure Act 1993.
- (2) In the circumstances referred to in *subsection (1)*, this Part shall apply in relation to the retention of the DNA profile of the person concerned in the reference index of the DNA Database System by reference to the subsequent relevant offence referred to in *paragraph (a), (b) or (c)* of that subsection, or the sexual offence referred to in that *paragraph (c)*, as may be appropriate.
- (3) In this section references to the retention period shall be construed as references to—
  - (a) in the case of *section 80*, the retention period under that section and any extension of that period under an authorisation given under *subsection (4), (5), (6) or (8) of section 81*, and
  - (b) in the case of *section 84*, the retention period within the meaning of that section.

**Date on which sample under *section 11, 12, 13, 31 or 32* may be deemed to have been taken in certain circumstances**

- 86.** (1) This section applies where a sample (in this section called “the first sample”) is taken from a person—
- (a) under *section 11, 12 or 13* while he or she is detained under any of the provisions referred to in *section 9(1)* for the purposes of the investigation of a relevant offence, or
  - (b) under *section 31 or 32* in connection with a conviction for a relevant offence or a sexual offence,
- and a DNA profile in respect of the person is generated from that sample and entered in the reference index of the DNA Database System.
- (2) If, in the circumstances referred to in *subsection (1)* in relation to a person—
- (a) but for the taking from him or her of the first sample, a sample may be, but is not, taken from him or her on a date after the first sample was taken (“the subsequent date”)—
    - (i) under *section 11* while the person is detained under any of the provisions referred to in any paragraph of *section 9(1)* for the purposes of the investigation of a relevant offence other than the offence in connection with which the first sample was taken, or
    - (ii) under *section 31 or 32* in connection with a conviction for a relevant offence or sexual offence other than the offence in connection with which the first sample was taken,
  - or
  - (b) an intimate sample or a non-intimate sample taken from the person on a date after the taking of the first sample (“the subsequent date”) for the investigation of a relevant offence other than the offence in

connection with which the first sample was taken is not used to generate a DNA profile in respect of the person to be entered in the reference index of the DNA Database System as his or her DNA profile has already been entered in that index,

the first sample shall be deemed to have been taken from him or her on the subsequent date—

- (i) for the purposes of the application of *subsection (7) or (9)* of *section 81* to the person, and
- (ii) for the purposes of the application of *subsection (1)* of *section 84* to the person so that the retention period under that section shall be—
  - (I) in the case of a person falling under *paragraph (a)* of that subsection, the period of 4 years from the subsequent date, or
  - (II) in the case of a person falling under *paragraph (b)* of that subsection, the period of 6 years from the subsequent date but only if that period is longer than the retention period under that subsection.
- (3) The subsequent date for the purposes of *subsection (2)(a)* shall be the latest date on which a sample under *section 11, 31 or 32*, as the case may be, may have been taken from the person concerned.

## CHAPTER 2

### *Application of this Part to persons from whom samples were taken under Part 3*

#### **Destruction of samples taken from persons under *Part 3* and destruction, or removal from DNA Database System, of their DNA profiles**

##### **87. (1) Subject to *subsection (2)* —**

- (b) in the case of a protected person or a child, the person who gave consent under *section 54* to the taking of a sample under *section 27 or 29* from the protected person or child, as the case may be,

may request the destruction of the sample, or the DNA profile generated from the sample in respect of the person from whom it was taken, or both by notice in writing sent or given to the Commissioner.

- (2) Where the DNA profile in respect of a person from whom a sample was taken under *section 27* is entered in the reference index of the DNA Database System under *section 28*, a request by the person under *subsection (1)* to have his or her DNA profile destroyed shall be regarded as including a request to have his or her DNA profile removed from that System.
- (3) Subject to *subsections (4) to (7)* and *section 93*, a sample taken from a person under *section 27 or 29*, and the DNA profile generated from the sample in respect of the person from whom it was taken, shall be destroyed not more than 3 months after the receipt by the Commissioner of the notice under *subsection (1)*.
- (4) Where the DNA profile in respect of a person from whom a sample was taken under *section 27* is entered in the reference index of the DNA Database System under *section 28*, the Commissioner may request the person to consent to the removal of the DNA profile in respect of the person from that System and its retention solely for the purposes of the

investigation of the particular offence in connection with the investigation of which the sample was taken.

- (5) If the person referred to in *subsection (4)* consents in writing to the retention of his or her DNA profile in relation to the investigation of the particular offence concerned, then, subject to *subsection (6)*, the DNA profile that was generated from the sample in respect of that person shall be removed from the DNA Database System and retained solely for the purposes of the investigation of that offence.
- (6) A member of the Garda Síochána shall, before the consent of the person concerned is obtained under *subsection (5)*, inform that person of the following effects of giving that consent:
  - (a) that the DNA profile in respect of that person generated from the sample that has already been taken from him or her shall be removed from the DNA Database System and retained solely for the purposes of the investigation of the particular offence concerned; and
  - (b) that the DNA profile in respect of that person may be destroyed in accordance with *subsections (1) and (3)*.
- (7) A consent under *subsection (5)* shall specify the particular offence that is being investigated to which it relates.
- (8) Subject to *subsection (10)*, a sample taken from a person under *section 27* or *29*, and the DNA profile generated from the sample in respect of the person from whom it was taken, shall, if not previously destroyed, be destroyed not more than 3 months after the investigation of the offence in relation to which the sample was taken is concluded or any proceedings in respect of that offence are determined, whichever is the later.
- (9) The member of the Garda Síochána in charge of the investigation of the offence referred to in *subsection (8)* shall determine, for the purposes of that subsection, when the investigation of that offence is concluded.
- (10) Where the DNA profile in respect of a person from whom a sample was taken under *section 27* is entered in the reference index of the DNA Database System under *section 28*, that DNA profile shall not be removed from that System unless the person makes a request, or is regarded under *subsection (2)* as having made such a request, to have it so removed and, on such a request being made or regarded as having been made, his or her DNA profile shall be removed as soon as practicable thereafter from that System.

### CHAPTER 3

Application of this Part to persons from whom samples were taken under *Part 5*

#### **Destruction of samples taken from persons under *sections 41 and 42* and removal of their DNA profiles from DNA Database System**

- 88.** (1) Subject to *subsection (4)*, a sample taken from a person under *section 41* or *42* shall be destroyed—
- (a) as soon as a DNA profile has been generated from the sample, or
  - (b) before the expiration of the period of 6 months from the taking of the sample,
- whichever occurs later.

- (2) Subject to *subsections (5) and (6)*, the DNA profile in respect of a person to whom *section 41(2) or 42(2)* applies entered in the elimination (Garda Síochána) index or the elimination (crime scene investigators) index of the DNA Database System shall not be removed from that System until the expiration of the period of 10 years after—

- (b) in the case of a person to whom *section 41(2)(b) or paragraph (b) or (c) of section 42(2)* applies, the person ceases to be employed by the Garda Síochána as such a person, but where he or she is appointed as a member of the Garda Síochána *paragraph (a)* applies to the person,
- and the DNA profile concerned shall be removed from that System as soon as practicable after that period.
- (3) A person—
- (a) to whom *subsection (3) of section 41* applies and from whom a sample was taken under that section, or
- (b) to whom *subsection (3) of section 42* applies and from whom a sample was taken under that section,
- may, at any time and without specifying a reason, request the destruction of the sample if not already destroyed, and the removal of his or her DNA profile from the DNA Database System, by notice in writing sent or given to the Commissioner.
- (4) Subject to *subsections (5) and (6)*, a sample taken under *section 41 or 42* from a person referred to in *subsection (3)* shall be destroyed if not previously destroyed, and his or her DNA profile shall be removed from the DNA Database System, not more than 3 months after the receipt by the Commissioner of the notice under that subsection.
- (5) If the Director of FSI, following consultation with the Commissioner, is satisfied that there is good reason relating to the investigation of offences why a DNA profile in respect of a person entered in the elimination (Garda Síochána) index or the elimination (crime scene investigators) index of the DNA Database System should not be removed from that System under *subsection (2) or (4)*, the Director may, subject to *subsection (6)*, direct that the DNA profile should not be removed from that System.
- (6) At the end of each year, the Director of FSI shall carry out a review to determine whether any of the DNA profiles in respect of persons referred to in *subsection (5)* shall be removed from the DNA Database System and he or she shall consult the Commissioner for the purposes of that review.
- (7) The Director of FSI shall inform by notice in writing a person from whom a sample was taken under *section 41 or 42* —
- (a) if a direction is given by the Director under *subsection (5)* in relation to the DNA profile in respect of the person, and

(3) A member of staff of FSI to whom *subsection (3) of section 43* applies and from whom a sample was taken under that section may, at any time and without specifying a reason, request the destruction of the sample if not already destroyed, and the removal of his or her DNA profile from the DNA Database System, by notice in writing sent or given to the Director of FSI.

(4) Subject to *subsections (5) and (6)*, a sample taken under *section 43* from a member of the staff of FSI referred to in *subsection (3)* shall be destroyed if not previously destroyed, and his or her DNA profile shall be removed from the DNA Database System, not more than 3 months after the receipt by the Director of FSI of the notice under that subsection.

(5) If the Director of FSI is satisfied that there is good reason relating to the investigation of offences why a DNA profile in respect of a member of the staff of FSI entered in the elimination (crime scene investigators) index of the DNA Database System should not be removed from that System under *subsection (2) or (4)*, the Director may, subject to *subsection (6)*, direct that the DNA profile shall not be removed from that System.

(6) At the end of each year, the Director of FSI shall carry out a review to determine whether any of the DNA profiles in respect of members of the staff of FSI referred to in *subsection (5)* shall be removed from the DNA Database System.

- (b) if appropriate, of a determination under *subsection (6)* in relation to the DNA profile in respect of the person.

**Destruction of samples taken from persons under *section 44* and removal of their DNA profiles from DNA Database System**

**90.** (1) A sample taken from a prescribed person under *section 44* shall be destroyed—

- (a) as soon as a DNA profile has been generated from the sample, or
- (b) before the expiration of the period of 6 months from the taking of the sample,

whichever occurs later.

- (2) Subject to *subsections (5) and (6)*, the DNA profile in respect of a person from whom a sample under *section 44* shall be taken that is entered in the elimination (crime scene investigators) index or the elimination (prescribed persons) index of the DNA Database System shall not be removed from that System until the expiration of the period of 10 years after the person ceases to be a prescribed person, and that DNA profile shall be removed from that System as soon as practicable after that period.
- (3) A prescribed person from whom a sample under *section 44* may be taken and from whom such a sample was taken may, at any time and without specifying a reason, request in the prescribed manner the destruction of the sample if not already destroyed and the removal of his or her DNA profile from the DNA Database System.
- (4) Subject to *subsections (5) and (6)*, a sample taken under *section 44* from a prescribed person referred to in *subsection (3)* shall be destroyed if not previously destroyed, and his or her DNA profile shall be removed from the DNA Database System, not more than 3 months after he or she makes the request under that subsection in the prescribed manner.
- (5) If the Director of FSI is satisfied that there is good reason relating to the investigation of offences why a DNA profile entered in the elimination (crime scene investigators) index or the elimination (prescribed persons) index of the DNA Database System should not be removed from that System under *subsection (2) or (4)*, the Director may, subject to *subsection (6)*, direct that the DNA profile shall not be removed from that System.
- (6) At the end of each year, the Director of FSI shall carry out a review to determine whether any of the DNA profiles in respect of persons referred to in *subsection (5)* shall be removed from the DNA Database System.

## CHAPTER 5

*Miscellaneous matters relating to destruction of samples and destruction,  
or removal from DNA Database System, of DNA profiles*

**Applications to District Court to retain certain samples and certain DNA profiles beyond retention period**

93. (1) If a judge of the District Court is satisfied, on an application in that behalf by the Commissioner made within the retention period under *section 80* and any extension of that period under an authorisation given under *section 81*, that there is good reason why a DNA profile in respect of a person generated from a sample taken from him or her under *section 11, 12, 13, 31 or 32* should not be removed from the DNA Database System in accordance with *section 80* within that retention period as so extended, the judge may make an order authorising the retention of the DNA profile in that System for such period as he or she considers appropriate.
- (2) If a judge of the District Court is satisfied, on an application in that behalf by the Commissioner made within the retention period under *section 84*, that there is good reason why a DNA profile in respect of a person who was a child offender generated from a sample taken from him or her under *section 11, 12, 13 or 32* should not be removed from the DNA Database System in accordance with *section 84*, the judge may make an order authorising the retention of the DNA profile in that System for such period as he or she considers appropriate.
- (3) If a judge of the District Court is satisfied, on an application in that behalf by a member of the Garda Síochána not below the rank of superintendent, that there is good reason relating to the investigation of a particular offence in connection with which a sample was taken under *section 27 or 29* why that sample and the DNA profile generated from it in respect of the person from whom it was taken should not be destroyed in accordance with *section 87(3)*, the judge may make an order authorising the retention of the sample or the DNA profile or both for such period as he or she considers appropriate.
- (4) If—
- (a) the Commissioner intends to make an application under *subsection (1) or (2)*, or
  - (b) a member of the Garda Síochána not below the rank of superintendent intends to make an application under *subsection (3)*,
- the Commissioner or the member, as may be appropriate, shall inform, or cause to be informed, by notice in writing the person from whom the sample concerned was taken and, if that person is a protected person or a child, if appropriate, the person who gave consent to the taking of the sample concerned from the protected person or child, as the case may be, of that intention.
- (5) If, on an application under *subsection (1), (2) or (3)*, the person from whom the sample concerned was taken, or any other person referred to in *subsection (4)*, applies to be heard by the judge of the District Court, an order shall not be made under this section unless a reasonable opportunity has been given to that person to be heard.
- (6) An application under this section shall be heard otherwise than in public.
- (7) In determining an application under this section, a judge of the District Court may make such order as to costs as the judge considers appropriate.

**Dismissal of charges, quashing of convictions and determination of proceedings**

94. (1) For the purposes of this Part, a charge against a person in respect of a relevant offence shall be regarded as dismissed when—

- (a) the time for bringing an appeal against the dismissal has expired,
- (b) any such appeal has been withdrawn or abandoned, or
- (c) on any such appeal, the dismissal is upheld.

(2) In this Part—

- (a) references to a conviction of a person for a relevant offence or a sexual offence shall be construed as including references to a conviction of the person for such an offence after a re-trial for that offence, and
- (b) references to a conviction of a person for a relevant offence or a sexual offence being quashed shall, subject to *subsection (3)*, be construed as references to where a court hearing an appeal against the conviction makes an order quashing the conviction and, if the court is the Court of Criminal Appeal, either—
  - (i) it does not order the person to be re-tried for the offence concerned, or
  - (ii) it does not substitute for the verdict a verdict of guilty of another offence that is a relevant offence or a sexual offence.
- (3) A conviction of a person for a relevant offence or a sexual offence shall not be regarded as quashed for the purposes of this Part if an appeal is contemplated, or taken, under section 23 of the Criminal Procedure Act 2010 or, on hearing the appeal, the Supreme Court quashes the acquittal of the person or reverses the decision of the Court of Criminal Appeal, as the case may be, and orders the person to be re-tried for the relevant offence or the sexual offence, as the case may be.
- (4) In this Part references to the proceedings in respect of an offence being determined shall be construed as references to where those proceedings are finally determined (including any appeal, whether by way of case stated or otherwise, rehearing or re-trial).

**Review of operation of this Part insofar as it relates to DNA Database System**

95. The Minister shall, not later than 6 years after the commencement of this section, review the operation of this Part insofar as it relates to the operation of the DNA Database System and, thereafter, the Minister may conduct similar reviews at such times as the Minister considers appropriate.

**Ministerial orders to change periods for destruction of samples or removal of DNA profiles from DNA Database System**

96. The Minister may by order under this section, if he or she considers it proper to do so following a review under *section 95* of the operation of this Part insofar as it relates to the operation of the DNA Database System, provide for all or any of the following:
- (a) that the period of 3 years specified in *subsection (7)(a) or (9)(a) of section 81* shall be decreased to such period as is specified in the order;

‘DNA’ means deoxyribonucleic acid;

‘DNA profile’, in relation to a person, means information comprising a set of identification characteristics of the non-coding part of DNA derived from an examination and analysis of a bodily sample from the person and that is capable of comparison with similar information derived from an examination and analysis of another sample of biological material for the purpose of determining whether or not that other sample could relate to that person;

‘guardian’, in relation to a child (including a protected person who is a child), has the meaning it has in the *Act of 2014*;

‘non-coding part of DNA’, in relation to a person, means the chromosome regions of the person’s DNA that are not known to provide for any functional properties of the person;

‘nurse’ means a person whose name is entered for the time being in the nurses’ division of the register of nurses and midwives established under section 46 of the Nurses and Midwives Act 2011;

‘parent’, in relation to a protected person or child, has the meaning it has in the *Act of 2014*;

‘protected person’ means, subject to subsection (1A), a person (including a child) who, by reason of a mental or physical disability—

(a) lacks the capacity to understand the general nature and effect of the taking of identification evidence from him or her, or

‘retention period’ means—

(3) The Minister may prescribe the form of a certificate under this section.

SCHEDULE 2

*Text of Council Decision 2008/615/JHA of 23 June 2008*

*Section 109*

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on European Union, and in particular Article 30(1) (a) and (b), Article 31(1) (a), Article 32 and Article 34(2) (c) thereof,

Having regard to the initiative of the Kingdom of Belgium, the Republic of Bulgaria, the Federal Republic of Germany, the Kingdom of Spain, the French Republic, the Grand Duchy of Luxembourg, the Kingdom of the Netherlands, the Republic of Austria, the Republic of Slovenia, the Slovak Republic, the Italian Republic, the Republic of Finland, the Portuguese Republic, Romania and the Kingdom of Sweden,

Having regard to the Opinion of the European Parliament<sup>1</sup>

Whereas:

- (1) Following the entry into force of the Treaty between the Kingdom of Belgium, the Federal Republic of Germany, the Kingdom of Spain, the French Republic, the Grand Duchy of Luxembourg, the Kingdom of the Netherlands and the Republic of Austria on the stepping up of cross-border cooperation, particularly in combating terrorism, crossborder crime and illegal migration hereinafter (Prüm Treaty), this initiative is submitted, in consultation with the European Commission, in compliance with the provisions of the Treaty on European Union, with the aim of incorporating the substance of the provisions of the Prüm Treaty into the legal framework of the European Union.
- (2) The conclusions of the European Council meeting in Tampere in October 1999 confirmed the need for improved exchange of information between the competent authorities of the Member States for the purpose of detecting and investigating offences.
- (3) In the Hague Programme for strengthening freedom, security and justice in the European Union of November 2004, the European Council set forth its conviction that for that purpose an innovative approach to the cross-border exchange of law enforcement information was needed.

<sup>1</sup> Opinion of 10 June 2007 (not yet published in the Official Journal).

- (4) The European Council accordingly stated that the exchange of such information should comply with the conditions applying to the principle of availability. This means that a law enforcement officer in one Member State of the Union who needs information in order to carry out his duties can obtain it from another Member State and that the law enforcement authorities in the Member State that holds this information will make it available for the declared purpose, taking account of the needs of investigations pending in that Member State.
- (5) The European Council set 1 January 2008 as the deadline for achieving this objective in the Hague Programme.
- (6) Council Framework Decision 2006/960/JHA of 18 December 2006 on simplifying the exchange of information and intelligence between law enforcement authorities of the Member States of the European Union<sup>2</sup> already lays down rules whereby the Member States' law enforcement authorities may exchange existing information and intelligence expeditiously and effectively for the purpose of carrying out criminal investigations or criminal intelligence operations.
- (7) The Hague Programme for strengthening freedom, security and justice states also that full use should be made of new technology and that there should also be reciprocal access to national databases, while stipulating that new centralised European databases should be created only on the basis of studies that have shown their added value.
- (8) For effective international cooperation it is of fundamental importance that precise information can be exchanged swiftly and efficiently. The aim is to introduce procedures for promoting fast, efficient and inexpensive means of data exchange. For the joint use of data these procedures should be subject to accountability and incorporate appropriate guarantees as to the accuracy and security of the data during transmission and storage as well as procedures for recording data exchange and restrictions on the use of information exchanged.
- (9) These requirements are satisfied by the Prüm Treaty. In order to meet the substantive requirements of the Hague Programme for all Member States within the time-scale set by it, the substance of the essential parts of the Prüm Treaty should become applicable to all Member States.
- (10) This Decision therefore contains provisions which are based on the main provisions of the Prüm Treaty and are designed to improve the exchange of information, whereby Member States grant one another access rights to their automated DNA analysis files, automated dactyloscopic identification systems and vehicle registration data. In the case of data from national DNA analysis files and automated dactyloscopic identification systems, a hit/no hit system should enable the searching Member State, in a second step, to request specific related personal data from the Member State administering the file and, where necessary, to request further information through mutual assistance procedures, including those adopted pursuant to Framework Decision 2006/960/JHA.
- (11) This would considerably speed up existing procedures enabling Member States to find out whether any other Member State, and if so, which, has the information it needs.
- (12) Cross-border data comparison should open up a new dimension in crime fighting. The information obtained by comparing data should open up new investigative approaches for Member States and thus play a crucial role in assisting Member States' law enforcement and judicial authorities.

<sup>2</sup> O.J. No. L386, 29.12.2006, p.89.

- (13) The rules are based on networking Member States' national databases.
- (14) Subject to certain conditions, Member States should be able to supply personal and non-personal data in order to improve the exchange of information with a view to preventing criminal offences and maintaining public order and security in connection with major events with a cross-border dimension.
- (15) In the implementation of Article 12, Member States may decide to give priority to combating serious crime bearing in mind the limited technical capacities available for transmitting data.
- (16) In addition to improving the exchange of information, there is a need to regulate other forms of closer cooperation between police authorities, in particular by means of joint security operations (e.g. joint patrols).
- (17) Closer police and judicial cooperation in criminal matters must go hand in hand with respect for fundamental rights, in particular the right to respect for privacy and to protection of personal data, to be guaranteed by special data protection arrangements, which should be tailored to the specific nature of different forms of data exchange. Such data protection provisions should take particular account of the specific nature of cross-border online access to databases. Since, with online access, it is not possible for the Member State administering the file to make any prior checks, a system ensuring post hoc monitoring should be in place.
- (18) The hit/no hit system provides for a structure of comparing anonymous profiles, where additional personal data is exchanged only after a hit, the supply and receipt of which is governed by national law, including the legal assistance rules. This set-up guarantees an adequate system of data protection, it being understood that the supply of personal data to another Member State requires an adequate level of data protection on the part of the receiving Member States.
- (19) Aware of the comprehensive exchange of information and data resulting from closer police and judicial cooperation, this Decision seeks to warrant an appropriate level of data protection. It observes the level of protection designed for the processing of personal data in the Council of Europe Convention of 28 January 1981 for the Protection of Individuals with regard to Automatic Processing of Personal Data, the Additional Protocol of 8 November 2001 to the Convention and the principles of Recommendation No R (87) 15 of the Council of Europe Regulating the Use of Personal Data in the Police Sector.
- (20) The data protection provisions contained in this Decision also include data protection principles which were necessary due to the lack of a Framework Decision on data protection in the Third Pillar. This Framework Decision should be applied to the entire area of police and judicial cooperation in criminal matters under the condition that its level of data protection is not lower than the protection laid down in the Council of Europe Convention for the Protection of Individuals with regard to automatic Processing of Personal Data of 28 January 1981 and its additional Protocol of 8 November 2001 and takes account of Recommendation No R (87) 15 of 17 September 1987 of the Committee of Ministers to Member States regulating the use of personal data in the police sector, also where data are not processed automatically.
- (21) Since the objectives of this Decision, in particular the improvement of information exchange in the European Union, cannot be sufficiently achieved by the Member States in isolation owing to the cross-border nature of crime fighting and security issues so that the Member States are

obliged to rely on one another in these matters, and can therefore be better achieved at European Union level, the Council may adopt measures in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty establishing the European Community, to which Article 2 of the Treaty on European Union refers. In accordance with the principle of proportionality pursuant to Article 5 of the EC Treaty, this Decision does not go beyond what is necessary to achieve those objectives.

- (22) This Decision respects the fundamental rights and observes the principles set out in particular in the Charter of Fundamental Rights of the European Union,

HAS DECIDED AS FOLLOWS:

2. For the purpose of implementing this Decision, the Member States shall ensure the availability of reference data from their national DNA analysis files as referred to in the first sentence of paragraph 1. Reference data shall only include DNA profiles established from the non-coding part of

DNA and a reference number. Reference data shall not contain any data from which the data subject can be directly identified. Reference data which is not attributed to any individual (unidentified DNA profiles) shall be recognisable as such.

3. Each Member State shall inform the General Secretariat of the Council of the national DNA analysis files to which Articles 2 to 6 apply and the conditions for automated searching as referred to in Article 3(1) in accordance with Article 36.

*Article 3*

**Automated searching of DNA profiles**

1. For the investigation of criminal offences, Member States shall allow other Member States' national contact points as referred to in Article 6, access to the reference data in their DNA analysis files, with the power to conduct automated searches by comparing DNA profiles. Searches may be conducted only in individual cases and in compliance with the requesting Member State's national law.
2. Should an automated search show that a DNA profile supplied matches DNA profiles entered in the receiving Member State's searched file, the national contact point of the searching Member State shall receive in an automated way the reference data with which a match has been found. If no match can be found, automated notification of this shall be given.

*Article 4*

**Automated comparison of DNA profiles**

1. For the investigation of criminal offences, the Member States shall, by mutual consent, via their national contact points, compare the DNA profiles of their unidentified DNA profiles with all DNA profiles from other national DNA analysis files' reference data. Profiles shall be supplied and compared in automated form. Unidentified DNA profiles shall be supplied for comparison only where provided for under the requesting Member State's national law.
2. Should a Member State, as a result of the comparison referred to in paragraph 1, find that any DNA profiles supplied match any of those in its DNA analysis files, it shall, without delay, supply the other Member State's national contact point with the reference data with which a match has been found.

*Article 5*

**Supply of further personal data and other information**

Should the procedures referred to in Articles 3 and 4 show a match between DNA profiles, the supply of further available personal data and other information relating to the reference data shall be governed by the national law, including the legal assistance rules, of the requested Member State.

*Article 6*

**National contact point and implementing measures**

1. For the purposes of the supply of data as referred to in Articles 3 and 4, each Member State shall designate a national contact point. The powers of the national contact points shall be governed by the applicable national law.

2. Details of technical arrangements for the procedures set out in Articles 3 and 4 shall be laid down in the implementing measures as referred to in Article 33.

*Article 7*

**Collection of cellular material and supply of DNA profiles**

Where, in ongoing investigations or criminal proceedings, there is no DNA profile available for a particular individual present within a requested Member State's territory, the requested Member State shall provide legal assistance by collecting and examining cellular material from that individual and by supplying the DNA profile obtained, if:

- (a) the requesting Member State specifies the purpose for which this is required;
- (b) the requesting Member State produces an investigation warrant or statement issued by the competent authority, as required under that Member State's law, showing that the requirements for collecting and examining cellular material would be fulfilled if the individual concerned were present within the requesting Member State's territory; and
- (c) under the requested Member State's law, the requirements for collecting and examining cellular material and for supplying the DNA profile obtained are fulfilled.

*SECTION 2*

**Dactyloscopic data**

*Article 8*

**Dactyloscopic data**

For the purpose of implementing this Decision, Member States shall ensure the availability of reference data from the file for the national automated fingerprint identification systems established for the prevention and investigation of criminal offences. Reference data shall only include dactyloscopic data and a reference number. Reference data shall not contain any data from which the data subject can be directly identified. Reference data which is not attributed to any individual (unidentified dactyloscopic data) must be recognisable as such.

*Article 9*

**Automated searching of dactyloscopic data**

1. For the prevention and investigation of criminal offences, Member States shall allow other Member States' national contact points, as referred to in Article 11, access to the reference data in the automated fingerprint identification systems which they have established for that purpose, with the power to conduct automated searches by comparing dactyloscopic data. Searches may be conducted only in individual cases and in compliance with the requesting Member State's national law.
2. The confirmation of a match of dactyloscopic data with reference data held by the Member State administering the file shall be carried out by the national contact point of the requesting Member State by means of the automated supply of the reference data required for a clear match.

3. Data supplied in accordance with Article 12 may be used by the Member State administering the file solely where this is necessary for the purpose of providing automated replies to search procedures or recording as specified in Article 30. If a flag exists, this may be removed subject to the national law of the Member States and only with the permission of the data subject or based on a decision of the competent court or independent data protection authority.
3. Personal data supplied which should not have been supplied or received shall be deleted. Data which are lawfully supplied and received shall be deleted:
  - (a) if they are not or no longer necessary for the purpose for which they were supplied; if personal data have been supplied without request, the receiving body shall immediately check if they are necessary for the purposes for which they were supplied;

Where there is reason to believe that deletion would prejudice the interests of the data subject, the data shall be blocked instead of being deleted in compliance with national law. Blocked data may be supplied or used solely for the purpose which prevented their deletion.

#### *Article 29*

#### **Technical and organisational measures to ensure data protection and data security**

1. The supplying and receiving bodies shall take steps to ensure that personal data is effectively protected against accidental or unauthorised destruction, accidental loss, unauthorised access, unauthorised or accidental alteration and unauthorised disclosure.

*Article 30*

**Logging and recording: special rules governing automated and non-automated supply**

1. Each Member State shall guarantee that every non-automated supply and every non-automated receipt of personal data by the body administering the file and by the searching body is logged in order to verify the admissibility of the supply. Logging shall contain the following information:
  - (a) the reason for the supply;
  - (b) the data supplied;
  - (c) the date of the supply; and
  - (d) the name or reference code of the searching body and of the body administering the file.
2. The following shall apply to automated searches for data based on Articles 3, 9 and 12 and to automated comparison pursuant to Article 4:

Anyone can request these authorities to check the lawfulness of the processing of data in respect of their person in compliance with national law. Independently of such requests, these authorities and the bodies responsible for recording shall carry out random checks on the lawfulness of supply, based on the files involved.

The results of such checks shall be kept for inspection for 18 months by the independent data protection authorities. After this period, they shall be immediately deleted. Each data protection authority may be requested by the independent data protection authority of another Member State to exercise its powers in accordance with national law. The independent data protection authorities of the Member States shall perform the inspection tasks necessary for mutual cooperation, in particular by exchanging relevant information.

Moreover, the data subject shall be entitled to have inaccurate data corrected and unlawfully processed data deleted. The Member States shall also ensure that, in the event of violation of his rights in relation to data protection, the data subject shall be able to lodge an effective complaint to an independent court or a tribunal within the meaning of Article 6(1) of the European Convention on Human Rights or an independent supervisory authority within the meaning of Article 28 of Directive 95/46/EC of the European Parliament and of the Council of 24 October 1995<sup>4</sup> on the protection of individuals with regard to the processing of personal data and on the free movement of such data and that he is given the possibility to claim for damages or to seek another form of legal compensation. The detailed rules for the procedure to assert these rights and the reasons for limiting the right of access shall be governed by the relevant national legal provisions of the Member State where the data subject asserts his rights.

2. Where a body of one Member State has supplied personal data under this Decision, the receiving body of the other Member State cannot use the inaccuracy of the data supplied as grounds to evade its liability vis-à-vis the injured party under national law. If damages are awarded against the receiving body because of its use of inaccurate transfer data, the body

SCHEDULE 3

*Text of Agreement Between the European Union and Iceland and Norway on the Application of Council Decision 2008/615/JHA of 23 June 2008 and Council Decision 2008/616/JHA of 23 June 2008*

*Section 109*

THE EUROPEAN UNION,

on the one hand, and

ICELAND,

and

NORWAY,

on the other hand,

hereinafter referred to as 'the Contracting Parties',

WISHING to improve police and judicial cooperation between the Member States of the European Union and Iceland and Norway, without prejudice to the rules protecting individual freedom,

CONSIDERING that current relationships between the Contracting Parties, in particular the Agreement concluded by the Council of the European Union and the Republic of Iceland and the Kingdom of Norway concerning the latter's association with the implementation, application and development of the Schengen acquis, demonstrate close cooperation in the fight against crime,

POINTING OUT the Contracting Parties' common interest in ensuring that police cooperation between the Member States of the European Union and Iceland and Norway is carried out in a fast and efficient manner compatible with the basic principles of their national legal systems, and in compliance with the individual rights and principles of the European Convention for the Protection of Human Rights and Fundamental Freedoms, signed at Rome on 4 November 1950,

RECOGNISING that Council Framework Decision 2006/960/JHA of 18 December 2006<sup>1</sup> on simplifying the exchange of information and intelligence between law enforcement authorities of the Member States of the European Union already lays down rules whereby the law enforcement authorities of the Member States of the European Union and Iceland and Norway may exchange existing information and intelligence expeditiously and effectively for the purpose of carrying out criminal investigations or criminal intelligence operations,

RECOGNISING that, in order to stimulate international cooperation in this area, it is of fundamental importance that precise information can be exchanged swiftly and efficiently. The aim is to introduce procedures for promoting fast, efficient and inexpensive means of data exchange. For the joint use of data these procedures should be subject to accountability and incorporate appropriate guarantees as to the accuracy and security of the data during transmission and storage as well as procedures for recording data exchange and restrictions on the use of information exchanged,

CONSIDERING that Iceland and Norway have expressed their wish to enter into an agreement enabling them to apply certain provisions of Council Decision 2008/615/JHA on the stepping up of cross-border cooperation, particularly in combating terrorism and cross-border crime, and Council Decision 2008/616/JHA on the implementation of Decision 2008/615/JHA on the stepping up of cross-border cooperation, particularly in combating

<sup>1</sup> O.J. No. L386, 29.12.2006, p.89.

terrorism and cross-border crime, and the Annex thereto, in relations with each other and with the Member States of the European Union,

CONSIDERING that the European Union also considers it necessary to enter into such an agreement,

POINTING OUT that this Agreement therefore contains provisions which are based on the main provisions of Decision 2008/615/JHA and Decision 2008/616/JHA, and the Annex thereto, and are designed to improve the exchange of information whereby Member States of the European Union and Iceland and Norway grant one another access rights to their automated DNA analysis files, automated dactyloscopic identification systems and vehicle registration data. In the case of data from national DNA analysis files and automated dactyloscopic identification systems, a hit/no hit system should enable the searching State, in a second step, to request specific related personal data from the State administering the file and, where necessary, to request further information through mutual assistance procedures, including those adopted pursuant to Framework Decision 2006/960/JHA,

CONSIDERING that these provisions would considerably speed up existing procedures enabling Member States, Iceland and Norway to find out whether another State, and if so, which, has the information it needs,

CONSIDERING that cross-border data comparison will open up a new dimension in crime fighting. The information obtained by comparing data will open up new investigative approaches and thus play a crucial role in assisting States' law enforcement and judicial authorities,

CONSIDERING that the rules are based on networking States' national databases,

CONSIDERING that subject to certain conditions, States should be able to supply personal and non-personal data in order to improve the exchange of information with a view to preventing criminal offences and maintaining public order and security in connection with major events with a cross-border dimension,

RECOGNISING that in addition to improving the exchange of information, there is a need to regulate other forms of closer cooperation between police authorities, in particular by means of joint security operations (e.g. joint patrols),

CONSIDERING that closer police and judicial cooperation in criminal matters must go hand in hand with respect for fundamental rights, in particular the right to respect for privacy and to protection of personal data, to be guaranteed by special data protection arrangements, which should be tailored to the specific nature of different forms of data exchange. Such data protection provisions should take particular account of the specific nature of cross-border on-line access to databases. Since, with on-line access, it is not possible for the State administering the file to make any prior checks, a system ensuring post hoc monitoring should be in place,

CONSIDERING that the hit/no hit system provides for a structure of comparing anonymous profiles, where additional personal data is exchanged only after a hit, the supply and receipt of which is governed by national law, including the legal assistance rules. This set-up guarantees an adequate system of data protection, it being understood that the supply of personal data to another State requires an adequate level of data protection on the part of the receiving State,

AWARE OF the comprehensive exchange of information and data resulting from closer police and judicial cooperation, this Agreement seeks to warrant an appropriate level of data protection. It observes the level of protection designed for the processing of personal data in the Council of Europe Convention of 28 January 1981 for the Protection of Individuals with regard to Automatic Processing of Personal Data, the Additional Protocol of 8 November 2001 to the Convention and the principles of Recommendation No R (87) 15 of the Council of Europe Regulating the Use of Personal Data in the Police Sector,

TAKING AS A BASIS the mutual confidence of the Member States of the European Union and Iceland and Norway in the structure and operation of their legal systems,

RECOGNISING that the provisions of bilateral and multilateral agreements remain applicable for all matters not covered by this Agreement,

HAVE DECIDED TO CONCLUDE THIS AGREEMENT:

Iceland or Norway shall promptly, and at the latest six months from the notification by the depositary, inform the depositary in writing upon fulfilment of all constitutional requirements. A meeting of the Contracting Parties shall be convened to examine all further possibilities with a view to continue the good functioning of this Agreement, including the possibility to take notice of equivalence of legislation. Suspension shall be terminated as soon as the State or States concerned notifies its/their acceptance of the amendment or if the Contracting Parties agree to reinstate the Agreement with respect to the State or States concerned.
5. If, after a period of six months of suspension, the Contracting Parties have not agreed to reinstate the Agreement, it shall cease to apply to the State which has not accepted the amendment.

6. Paragraphs 4 and 5 do not apply to amendments relating to Chapters 3, 4 or 5 of Decision 2008/615/JHA or Article 17 of Decision 2008/616/JHA, in respect of which Iceland or Norway, or both, have notified the depositary that they do not accept the amendment stating the reasons thereof. In that case, and without prejudice to Article 10, the content of the relevant provisions in their version prior to amendment shall continue to be applicable in the relations with the State or States having made the notification.

*Article 6*

**Review**

The Contracting Parties agree to carry out a common review of this Agreement no later than five years after its entry into force. The review shall in particular address the practical implementation, interpretation and development of the Agreement and shall also include issues such as the consequences of development of the European Union relating to the subject-matter of this Agreement.

*Article 7*

**Relationship with other instruments**

Iceland and Norway may continue to apply bilateral or multilateral agreements or arrangements on cross-border cooperation with Member States that are in force on the date this Agreement is adopted in so far as such agreements or arrangements are not incompatible with the objectives of this Agreement. Iceland and Norway shall notify the depositary of any such agreements or arrangements which will continue to apply.
2. Iceland and Norway may conclude or bring into force additional bilateral or multilateral agreements or arrangements on cross-border cooperation with Member States after this Agreement has entered into force insofar as such agreements or arrangements provide for the objectives of this Agreement to be extended or enlarged. Iceland and Norway shall notify the depositary of any such new agreement or arrangement within three months of signing or, in the case of instruments that were signed before the entry into force of the Agreement, within three months of their entry into force.
3. The agreements and arrangements referred to in paragraphs 1 and 2 may not affect relations with States that are not parties thereto.
4. This Agreement shall be without prejudice to existing agreements on legal assistance or mutual recognition of court decisions.

2. The European Union may express its consent to be bound by this Agreement even if the decisions referred to in Article 25(2) of Decision 2008/615/JHA have not yet been taken in respect of all the Member States to which that provision applies.
3. Article 5(1) and (2) shall apply provisionally as from the time of signature of this Agreement.

4. With respect to amendments adopted after the signature of this Agreement but before its entry into force, the period of three months referred to in the last sentence of Article 5(2) shall start to run from the day of entry into force of this Agreement.
5. When giving their notification under paragraph 1 or, if so provided, at any time thereafter, Iceland and Norway shall make the declarations provided for in this Agreement.
6. This Agreement shall enter into force between the European Union and Iceland on the first day of the third month following the day on which the Secretary-General of the Council of the European Union establishes that all formal requirements concerning the expression of consent by or on behalf of the European Union and Iceland to be bound by the Agreement have been fulfilled.
7. This Agreement shall enter into force between the European Union and Norway on the first day of the third month following the day on which the Secretary-General of the Council of the European Union establishes that all formal requirements concerning the expression of consent by or on behalf of the European Union and Norway to be bound by the Agreement have been fulfilled.

9. The supply by Member States of personal data under this Agreement may not take place until the provisions of Chapter 6 of Decision 2008/615/JHA have been implemented in the national law of the States involved in such supply.
10. In order to verify whether this is the case for Iceland and Norway, an evaluation visit and a pilot run shall be carried out in respect of and under conditions and arrangements acceptable to those States, similar to those concluded in respect of Member States pursuant to Chapter 4 of the Annex to Decision 2008/616/JHA.

**Declaration to be adopted at the occasion of the Signature of the Agreement**

The European Union and Iceland and Norway, signatories to the Agreement on the application of certain provisions of Council Decision 2008/615/JHA on the stepping up of cross-border cooperation, particularly in combating terrorism and cross-border crime and Council Decision 2008/616/JHA on the implementation of Council Decision 2008/615/JHA on the stepping up of cross-border cooperation, particularly in combating terrorism and cross-border crime, and the Annex thereto, ('the Agreement'),

declare:

The implementation of the DNA, dactyloscopic and vehicle registration data exchange pursuant to the Agreement will require that Iceland and Norway set up bilateral connections for each of these data categories with each of the Member States.

To enable and facilitate this work, Iceland and Norway will be provided with all the available documentation, software products and contact lists.

Iceland and Norway will have the opportunity to set up an informal partnership with Member States that have already implemented such data exchange, with a view to sharing experiences and getting practical and technical support. The details of such partnerships are to be arranged in direct contacts with the Member States concerned.

The Icelandic and Norwegian experts can contact at any time the Presidency of the Council, the Commission and/or leading experts in these matters to obtain information, clarification or any other support. Similarly the Commission will, whenever in preparation of proposals or communications it contacts representatives of the Member States, avail itself of the opportunity to contact also representatives of Iceland and Norway.

Icelandic and Norwegian experts may be invited to attend on an ad hoc basis meetings where Member States' experts discuss within the Council technical aspects of the DNA, dactyloscopic or vehicle registration data exchange which are directly relevant to the proper application of the content of the aforementioned Council Decisions by Iceland and/or Norway.

#### SCHEDULE 4

##### **Text of Council Framework Decision 2009/905/JHA of 30 November 2009**

##### *Section 109*

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on European Union, and in particular Article 30(1) (a) and (c) and Article 34(2) (b) thereof,

Having regard to the initiative of the Kingdom of Sweden and the Kingdom of Spain<sup>1</sup>,

Having regard to the opinion of the European Parliament,

Whereas:

- (1) The European Union has set itself the objective of maintaining and developing the Union as an area of freedom, security and justice; a high level of safety is to be provided by common action among the Member States in the field of police and judicial cooperation in criminal matters.
- (2) That objective is to be achieved by preventing and combating crime through closer cooperation between law enforcement authorities in the Member States, while respecting the principles and rules relating to human rights, fundamental freedoms and the rule of law on which the Union is founded and which are common to the Member States.
- (3) Exchange of information and intelligence on crime and criminal activities is crucial for the possibility for law enforcement authorities to successfully prevent, detect and investigate crime or criminal activities. Common action in the field of police cooperation under Article 30(1) (a) of the Treaty entails the need to process relevant information which should be subject to appropriate provisions on the protection of personal data.
- (4) The intensified exchange of information regarding forensic evidence and the increased use of evidence from one Member State in the judicial processes of another highlights the need to establish common standards for forensic service providers.
- (5) Information originating from forensic processes in one Member State may currently be associated with a level of uncertainty in another Member State regarding the way in which an item has been handled, what methods have been used and how the results have been interpreted.
- (6) In point 3.4(h) of the Council and Commission Action Plan implementing The Hague Programme on strengthening freedom, security and justice in

<sup>1</sup> O.J. No. C174, 28.7.2009, p.7.

the European Union<sup>2</sup> Member States stressed the need for a definition of the quality standards of forensic laboratories by 2008.

- (7) It is particularly important to introduce common standards for forensic service providers relating to such sensitive personal data as DNA profiles and dactyloscopic data.
- (8) Pursuant to Article 7(4) of Council Decision 2008/616/JHA of 23 June 2008 on the implementation of Decision 2008/615/JHA on the stepping up of cross-border cooperation, particularly in combating terrorism and cross-border crime<sup>3</sup>, Member States shall take the necessary measures to guarantee the integrity of DNA profiles made available or sent for comparison to other Member States and to ensure that these measures comply with international standards, such as EN ISO/IEC 17025 'General requirements for the competence of testing and calibration laboratories' (hereinafter 'EN ISO/IEC 17025').
- (9) DNA profiles and dactyloscopic data are not only used in criminal proceedings but are also crucial for the identification of victims, particularly after disasters.
- (10) The accreditation of forensic service providers carrying out laboratory activities is an important step towards a safer and more effective exchange of forensic information within the Union.
- (11) Accreditation is granted by the national accreditation body which has exclusive competence to assess if a laboratory meets the requirements set by harmonised standards. An accreditation body derives its authority from the State. Regulation (EC) No 765/2008 of the European Parliament and of the Council of 9 July 2008 setting out the requirements for accreditation and market surveillance relating to the marketing of products<sup>4</sup> contains detailed provisions on the competence of such national accreditation bodies. Inter alia, Article 7 of that Regulation regulates cross-border accreditation in cases where accreditation may be requested from another national accreditation body.
- (12) The absence of an agreement to apply a common accreditation standard for the analysis of scientific evidence is a deficiency that should be remedied; it is, therefore, necessary to adopt a legally binding instrument on the accreditation of all forensic service providers carrying out laboratory activities. Accreditation offers the necessary guarantees that laboratory activities are performed in accordance with relevant international standards, in particular EN ISO/IEC 17025, as well as relevant applicable guidelines.
- (13) An accreditation standard allows any Member State to require, if it wishes, complementary standards in laboratory activities within its national jurisdiction.
- (14) Accreditation will help establish mutual trust in the validity of the basic analytic methods used. However, accreditation does not state which method to use, only that the method used has to be suitable for its purpose.
- (15) Any measure taken outside a laboratory is beyond the scope of this Framework Decision. For example, the taking of dactyloscopic data or measures taken at the scene of incident, the scene of crime or forensic analyses carried out outside laboratories are not included in its scope.
- (16) This Framework Decision does not aim to harmonise national rules regarding the judicial assessment of forensic evidence.

<sup>2</sup> O.J. No. C198, 12.8.2005, p.1.

<sup>3</sup> O.J. No. L210, 6.8.2008, p.12.

<sup>4</sup> O.J. No. L218, 13.8.2008, p.30.

- (17) This Decision does not affect the validity, established in accordance with national applicable rules, of the results of laboratory activities carried out prior to its implementation, even if the forensic service provider was not accredited to comply with EN ISO/IEC 17025,

HAS ADOPTED THIS FRAMEWORK DECISION:

*Article 1*
