[26th December, 2019]

Be it enacted by the Oireachtas as follows:

“court” means—

(a) in relation to a conviction of a person in the State, any court in the State exercising criminal jurisdiction and includes a Special Criminal Court but does not include a court martial, or

(b) in relation to a conviction of a person in a Member State or a third country, any court in the Member State or, as the case may be, third country exercising criminal jurisdiction;

“criminal record”, in relation to a Member State, means, subject to *section 6(5)*, the national register or registers in the Member State containing a record of convictions in accordance with its national law;

“Criminal Records Database” means the database maintained by the Garda Síochána that contains a record of convictions;

¹ OJ No. L 93, 7.4.2009, p. 23.

² OJ No. L 93, 7.4.2009, p. 33.

“enactment” has the same meaning as it has in the Interpretation Act 2005;

“Framework Decision” means Council Framework Decision 2009/315/JHA of 26 February 2009 on the organisation and content of the exchange of information extracted from the criminal record between Member States, the text of which in the English language is for convenience of reference set out in *Schedule 1*;

“Member State” means a Member State of the European Union other than the State;

“requesting Member State” shall be construed in accordance with *section 7*;

“third country” means a country or territory other than the State or a Member State.

- (2) The Garda Commissioner may delegate in writing (in this section referred to as a “delegation”) such functions of the Central Authority as may be specified in the delegation to—

(a) members of the Garda Síochána specified by rank or name, or

- (7) In this section, “Garda Commissioner” means the Commissioner of the Garda Síochána.

Recording of nationality of convicted persons

3. The Central Authority shall take such steps as may be necessary to ensure that when information relating to a conviction in the State of a person is recorded on the Criminal Records Database, it shall be accompanied by information, where available, in respect of the nationality or nationalities of the convicted person.

4. (1) Where a person is—

(a) convicted in the State of an offence, and

(b) a national of one or more Member States,

- (3) Upon receiving information referred to in *subsections (1) or (2)* from a central authority of a Member State, the Central Authority may, in individual cases, request from the central authority concerned a copy of the conviction and any sentence imposed, or any related order of a court, in respect of the conviction, and any other information relevant thereto, in order to enable it to consider whether any measures are necessitated in the State.

Request for information under Article 6 of Framework Decision

6. (1) Where information from the Criminal Records Database in relation to a person is required—

(a) for the purposes of criminal proceedings against the person in the State, or

(b) by or under any enactment or rule of law for a purpose specified in *Schedule 3*,

the Central Authority may, in accordance with *subsection (4)*, submit a request under Article 6 of the Framework Decision to the central authority of a Member State for information contained in the criminal record of the Member State in relation to the person for that purpose.

- (2) Where a person who is a national of a Member State makes a request to the Garda Síochána for a copy of his or her criminal record, the Central Authority shall submit a request to the central authority of the Member State for information contained in the criminal record of that Member State in relation to the person, for the purpose of including the information in the information provided by it to the person.

Conditions for use of personal data

11. “Data Protection Regulation” means Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation)³.

SCHEDULE 1*Section 1***Council Framework Decision 2009/315/JHA****of 26 February 2009****on the organisation and content of the exchange of information extracted from
the criminal record between Member States**

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on European Union, and in particular Articles 31 and 34(2)(b) thereof,

Having regard to the proposal from the Commission and the initiative of the Kingdom of Belgium,

Having regard to the opinion of the European Parliament ⁽¹⁾,

Whereas:

- (1) The European Union has set itself the objective of providing citizens with a high level of safety within the area of freedom, security and justice. This objective presupposes the exchange between the competent authorities of the Member States of information extracted from criminal records.
- (2) On 29 November 2000 the Council, in accordance with the conclusions of the Tampere European Council of 15 and 16 October 1999, adopted a programme of measures to implement the principle of mutual recognition of decisions in criminal matters ⁽²⁾. This Framework Decision contributes to achieving the goals provided for by measure 3 of the programme, which calls for the establishment of a standard form like that drawn up for the Schengen bodies, translated into all the official languages of the Union, for criminal records requests.
- (3) The Final Report on the first evaluation exercise on mutual legal assistance in criminal matters ⁽³⁾ called on the Member States to simplify the procedures for transferring documents between States, using, if necessary, standard forms to facilitate mutual legal assistance.
- (4) The need to improve the quality of information exchanged on convictions was prioritised in the European Council Declaration on Combating Terrorism of 25 and 26 March 2004 and was reiterated in the Hague Programme ⁽⁴⁾, adopted by the European Council on 4 and 5 November 2004, which called for greater exchange of information from national conviction and disqualification registers. These objectives are reflected in the Action Plan jointly adopted by the Council and the Commission on 2 and 3 June 2005 with a view to carrying out the Hague Programme.
- (5) With a view to improving the exchange of information between Member States on criminal records, projects developed with the aim to achieve this objective are welcomed, including the existing project for the interconnection of national criminal registers. The experience gathered from these activities has encouraged the Member States to further enhance

¹Opinion delivered on 17 June 2008 (not yet published in the Official Journal).

⁴OJ C 53, 3.3.2005, p. 1.

their efforts and showed the importance to continue streamlining the mutual exchange of information on convictions between the Member States.

- (6) This Framework Decision is a response to the wishes expressed by the Council on 14 April 2005, following the publication of the White Paper on exchanges of information on convictions and the effect of such convictions in the European Union and the subsequent general discussion thereof. Its main aim is to improve the exchange of information on convictions and, where imposed and entered in the criminal records of the convicting Member State, on disqualifications arising from criminal conviction of citizens of the Union.
- (7) The application of the mechanisms established by this Framework Decision only to the transmission of information extracted from criminal records concerning natural persons should be without prejudice to a possible future broadening of the scope of application of such mechanisms to the exchange of information concerning legal persons.
- (8) Information on convictions handed down in other Member States is currently governed by Articles 13 and 22 of the European Convention on Mutual Assistance in Criminal Matters of 20 April 1959. These provisions are not, however, sufficient to meet the present requirements of judicial cooperation in an area such as the European Union.
- (9) As between the Member States, this Framework Decision should replace Article 22 of the European Convention on Mutual Assistance in Criminal Matters. In addition to the obligations of a convicting Member State to transmit information to the Member States of the person's nationality concerning convictions handed down against their nationals which this Framework Decision incorporates and further defines, an obligation on the Member States of the person's nationality to store information so transmitted is also introduced, in order to ensure that they are able to reply fully to requests for information from other Member States.
- (10) This Framework Decision should be without prejudice to the possibility of judicial authorities' directly requesting and transmitting information from criminal records pursuant to Article 13 in conjunction with Article 15(3), of the European Convention on Mutual Assistance in Criminal Matters and without prejudice to Article 6(1) of the Convention on Mutual Assistance in Criminal Matters between the Member States of the European Union, established by Council Act of 29 May 2000 ⁽¹⁾.
- (11) Improving the circulation of information on convictions is of little benefit if Member States are not able to take transmitted information into account. On 24 July 2008, Council adopted Framework Decision 2008/675/JHA on taking account of convictions in the Member States of the European Union in the course of new criminal proceedings ⁽²⁾.
- (12) The main objective of the initiative of the Kingdom of Belgium is attained by this Framework Decision to the extent that the central authority of every Member State should request and include all information provided from the criminal records of the Member State of the person's nationality in its extract from criminal records when it replies to a request from the person concerned. Awareness of the existence of the conviction as well as, where imposed and entered in the criminal record, of a disqualification arising from it, is a prerequisite for giving them effect in accordance with the national law of the Member State in which the person intends to perform professional activity related to supervision of children. The mechanism established by this Framework Decision aims at inter alia ensuring that a

¹ OJ C 197, 12.7.2000, p. 3.

² OJ L 220, 15.8.2008, p. 32.

person convicted of a sexual offence against children should no longer, where the criminal record of that person in the convicting Member State contains such conviction and, if imposed and entered in the criminal record, a disqualification arising from it, be able to conceal this conviction or disqualification with a view to performing professional activity related to supervision of children in another Member State.

- (13) This Framework Decision establishes rules on the protection of personal data transmitted between the Member States as a result of its implementation. Existing general rules on the protection of personal data processed in the framework of police and judicial cooperation in criminal matters are complemented by the rules established in this Framework Decision. Furthermore, the Council of Europe Convention of 28 January 1981 for the Protection of Individuals with regard to Automatic Processing of Personal Data applies to the personal data handled on the basis of this Framework Decision. This Framework Decision also incorporates the provisions of Council Decision 2005/876/JHA of 21 November 2005 on the exchange of information extracted from the criminal record ⁽³⁾ which limit the use the requesting Member State can make of information asked for. This Framework Decision supplements such provisions with specific rules applying where the Member State of the person's nationality forwards information on convictions transmitted to it by the convicting Member State.
- (14) This Framework Decision does not modify obligations and practices established in relation to third States under the European Convention on Mutual Assistance in Criminal Matters, in so far as that instrument remains applicable.
- (15) Under Council of Europe Recommendation No R (84) 10 on criminal records and rehabilitation of convicted persons, the main aim of establishment of criminal records is to inform the authorities responsible for the criminal justice system of the background of a person subject to legal proceedings with a view to adapting the decision to be taken to the individual situation. Since all other use of criminal records that might compromise the chances of social rehabilitation of the convicted person must be as limited as possible, the use of information transmitted under this Framework Decision for purposes other than that of criminal proceedings can be limited in accordance with the national law of the requested Member State and the requesting Member State.
- (16) The aim of the provisions of this Framework Decision concerning the transmission of information to the Member State of the person's nationality for the purpose of its storage and retransmission is not to harmonise national systems of criminal records of the Member States. This Framework Decision does not oblige the convicting Member State to change its internal system of criminal records as regards the use of information for domestic purposes.
- (17) Improving the circulation of information on convictions is of little benefit if such information cannot be understood by the Member State receiving it. Mutual understanding may be enhanced by the creation of a 'standardised European format' allowing information to be exchanged in a uniform, electronic and easily machine-translatable way. Information on convictions sent by the convicting Member State should be transmitted in the official language or one of the official languages of that Member State. Measures should be taken by Council to set up the information exchange system introduced by this Framework Decision.

³ OJ L 322, 9.12.2005, p. 33.

(18) This Framework Decision respects the fundamental rights and observes the principles recognised by Article 6 of the Treaty on European Union and reflected by the Charter of Fundamental Rights of the European Union.

(19) This Framework Decision respects the principle of subsidiarity referred to in Article 2 of the Treaty on European Union and set out in Article 5 of the Treaty establishing the European Community since the improvement of systems for the transmission of information on convictions between Member States cannot be carried out adequately by the Member States unilaterally and requires coordinated action in the European Union. In accordance with the principle of proportionality, as set out in the Article 5 of the Treaty establishing the European Community, this Framework Decision does not go beyond what is necessary in order to achieve that objective,

HAS ADOPTED THIS FRAMEWORK DECISION:

Article 1

Objective

The purpose of this Framework Decision is:

- (a) to define the ways in which a Member State where a conviction is handed down against a national of another Member State (the 'convicting Member State') transmits the information on such a conviction to the Member State of the convicted person's nationality (the 'Member State of the person's nationality');
- (b) to define storage obligations for the Member State of the person's nationality and to specify the methods to be followed when replying to a request for information extracted from criminal records;
- (c) to lay down the framework for a computerised system of exchange of information on convictions between Member States to be built and developed on the basis of this Framework Decision and the subsequent decision referred to in Article 11(4).

Article 2

Definitions

For the purposes of this Framework Decision:

- (a) 'conviction' means any final decision of a criminal court against a natural person in respect of a criminal offence, to the extent these decisions are entered in the criminal record of the convicting Member State;
- (b) 'criminal proceedings' means the pre-trial stage, the trial stage itself and the execution of the conviction;
- (c) 'criminal record' means the national register or registers recording convictions in accordance with national law.

Article 3

Central authority

1. For the purposes of this Framework Decision, each Member State shall designate a central authority. However, for the transmission of information under Article 4 and for replies under Article 7 to requests referred to in Article 6, Member States may designate one or more central authorities.

2. Each Member State shall inform the General Secretariat of the Council and the Commission of the central authority or authorities designated in accordance with paragraph 1. The General Secretariat of the Council shall notify the Member States and Eurojust of this information.

Article 4

Obligations of the convicting Member State

1. Each Member State shall take the necessary measures to ensure that all convictions handed down within its territory are accompanied, when provided to its criminal record, by information on the nationality or nationalities of the convicted person if he is a national of another Member State.

2. The central authority of the convicting Member State shall, as soon as possible, inform the central authorities of the other Member States of any convictions handed down within its territory against the nationals of such other Member States, as entered in the criminal record.

If it is known that the convicted person is a national of several Member States, the relevant information shall be transmitted to each of these Member States, even if the convicted person is a national of the Member State within whose territory he was convicted.

3. Information on subsequent alteration or deletion of information contained in the criminal record shall be immediately transmitted by the central authority of the convicting Member State to the central authority of the Member State of the person's nationality.
4. Any Member State which has provided information under paragraphs 2 and 3 shall communicate to the central authority of the Member State of the person's nationality, on the latter's request in individual cases, a copy of the convictions and subsequent measures as well as any other information relevant thereto in order to enable it to consider whether they necessitate any measure at national level.

Article 5

Obligations of the Member State of the person's nationality

1. The central authority of the Member State of the person's nationality shall store all information in accordance with Article 11(1) and (2) transmitted under Article 4(2) and (3), for the purpose of retransmission in accordance with Article 7.
2. Any alteration or deletion of information transmitted in accordance with Article 4(3) shall entail identical alteration or deletion by the Member State of the person's nationality regarding information stored in accordance with paragraph 1 of this Article for the purpose of retransmission in accordance with Article 7.
3. For the purpose of retransmission in accordance with Article 7 the Member State of the person's nationality may only use information which has been updated in accordance with paragraph 2 of this Article.

Article 6

Request for information on convictions

1. When information from the criminal record of a Member State is requested for the purposes of criminal proceedings against a person or for any

purposes other than that of criminal proceedings, the central authority of that Member State may, in accordance with its national law, submit a request to the central authority of another Member State for information and related data to be extracted from the criminal record.

2. When a person asks for information on his own criminal record, the central authority of the Member State in which the request is made may, in accordance with its national law, submit a request to the central authority of another Member State for information and related data to be extracted from the criminal record, provided the person concerned is or was a resident or a national of the requesting or requested Member State.
3. Once the time limit set out in Article 11(7) has elapsed, whenever a person asks the central authority of a Member State other than the Member State of the person's nationality for information on his own criminal record, the central authority of the Member State in which the request is made shall submit a request to the central authority of the Member State of the person's nationality for information and related data to be extracted from the criminal record in order to be able to include such information and related data in the extract to be provided to the person concerned.
4. All requests from the central authority of a Member State for information extracted from the criminal record shall be submitted using the form set out in the Annex.

Article 7

Reply to a request for information on convictions

1. When information extracted from the criminal record is requested under Article 6 from the central authority of the Member State of the person's nationality for the purposes of criminal proceedings, that central authority shall transmit to the central authority of the requesting Member State information on:
 - (a) convictions handed down in the Member State of the person's nationality and entered in the criminal record;
 - (b) any convictions handed down in other Member States which were transmitted to it after 27 April 2012, in application of Article 4, and stored in accordance with Article 5(1) and (2);
 - (c) any convictions handed down in other Member States which were transmitted to it by 27 April 2012, and entered in the criminal record;
 - (d) any convictions handed down in third countries and subsequently transmitted to it and entered in the criminal record.
 2. When information extracted from the criminal record is requested under Article 6 from the central authority of the Member State of the person's nationality for any purposes other than that of criminal proceedings, that central authority shall in respect of convictions handed down in the Member State of the person's nationality and of convictions handed down in third countries, which have been subsequently transmitted to it and entered in its criminal record, reply in accordance with its national law.
- In respect of information on convictions handed down in another Member State, which have been transmitted to the Member State of the person's nationality, the central authority of the latter Member State shall in accordance with its national law transmit to the requesting Member State the information which has been stored in accordance with Article 5 (1) and

(2) as well as the information which has been transmitted to that central authority by 27 April 2012, and has been entered in its criminal record.

When transmitting the information in accordance with Article 4, the central authority of the convicting Member State may inform the central authority of the Member State of the person's nationality that the information on convictions handed down in the former Member State and transmitted to the latter central authority may not be retransmitted for any purposes other than that of criminal proceedings. In this case, the central authority of the Member State of the person's nationality shall, in respect of such convictions, inform the requesting Member State which other Member State had transmitted such information so as to enable the requesting Member State to submit a request directly to the convicting Member State in order to receive information on these convictions.

3. When information extracted from the criminal record is requested from the central authority of the Member State of the person's nationality by a third country, the Member State of the person's nationality may reply in respect of convictions transmitted by another Member State only within the limitations applicable to the transmission of information to other Member States in accordance with paragraphs 1 and 2.
4. When information extracted from the criminal record is requested under Article 6 from the central authority of a Member State other than the Member State of the person's nationality, the requested Member State shall transmit information on convictions handed down in the requested Member State and on convictions handed down against third country nationals and against stateless persons contained in its criminal record to the same extent as provided for in Article 13 of the European Convention on Mutual Assistance in Criminal Matters.
5. The reply shall be made using the form set out in the Annex. It shall be accompanied by a list of convictions, as provided for by national law.

Article 8

Deadlines for replies

1. Replies to the requests referred to in Article 6(1) shall be transmitted by the central authority of the requested Member State to the central authority of the requesting Member State immediately and in any event within a period not exceeding ten working days from the date the request was received, as provided for by its national law, rules or practice, using the form set out in the Annex.

When the requested Member State requires further information to identify the person involved in the request, it shall immediately consult the requesting Member State with a view to providing a reply within ten working days from the date the additional information is received.

2. Replies to the request referred to in Article 6(2) shall be transmitted within twenty working days from the date the request was received.

Article 9

Conditions for the use of personal data

1. Personal data provided under Article 7(1) and (4) for the purposes of criminal proceedings may be used by the requesting Member State only for the purposes of the criminal proceedings for which it was requested, as specified in the form set out in the Annex.

2. Personal data provided under Article 7(2) and (4) for any purposes other than that of criminal proceedings may be used by the requesting Member State in accordance with its national law only for the purposes for which it was requested and within the limits specified by the requested Member State in the form set out in the Annex.
3. Notwithstanding paragraphs 1 and 2, personal data provided under Article 7(1), (2) and (4) may be used by the requesting Member State for preventing an immediate and serious threat to public security.
4. Member States shall take the necessary measures to ensure that personal data received from another Member State under Article 4, if transmitted to a third country in accordance with Article 7(3), is subject to the same usage limitations as those applicable in a requesting Member State in accordance with paragraph 2 of this Article. Member States shall specify that personal data, if transmitted to a third country for the purposes of a criminal proceeding, may be further used by that third country only for the purposes of criminal proceedings.
5. This Article does not apply to personal data obtained by a Member State under this Framework Decision and originating from that Member State.

Article 10

Languages

When submitting a request referred to in Article 6(1), the requesting Member State shall transmit to the requested Member State the form set out in the Annex in the official language or one of the official languages of the latter Member State.

The requested Member State shall reply either in one of its official languages or in any other language accepted by both Member States.

Any Member State may, at the time of the adoption of this Framework Decision or at a later date, indicate, in a statement to the General Secretariat of the Council, which are the official languages of the institutions of the European Union that it accepts. The General Secretariat of the Council shall notify the Member States of this information.

Article 11

and

(iv) information on the contents of the conviction (notably the sentence as well as any supplementary penalties, security measures and subsequent decisions modifying the enforcement of the sentence);

(b) information that shall be transmitted if entered in the criminal record (optional information):

For the same purpose it may store the information of the types listed in point (c) of the first subparagraph and in the second subparagraph of paragraph 1.

3. Until the time limit set out in paragraph 7 has elapsed, central authorities of Member States which have not carried out the notification referred to in paragraph 6 shall transmit all information in accordance with Article 4, requests in accordance with Article 6, replies in accordance with Article 7 and other relevant information by any means capable of producing a written record under conditions allowing the central authority of the receiving Member State to establish the authenticity thereof.

Other such means include:

(a) defining all means by which understanding and automatically translating transmitted information may be facilitated;

- (b) defining the means by which information may be exchanged electronically, particularly as regards the technical specification to be used and, if need be, any applicable exchange procedures;

5. If the mode of transmission referred to in paragraphs 3 and 4 is not available, the first subparagraph of paragraph 3 shall remain applicable for the entire period of such unavailability.
 6. Each Member State shall carry out the necessary technical alterations to be able to use the standardised format and electronically transmit it to other Member States. It shall notify the Council of the date from which it will be able to carry out such transmissions.
 7. Member States shall carry out the technical alterations referred to in paragraph 6 within three years from the date of adoption of the format and the means by which information on convictions may be exchanged electronically.

SCHEDULE 4

Section 10

Council Decision 2009/316/JHA

of 6 April 2009

on the establishment of the European Criminal Records Information System (ECRIS) in application of Article 11 of Framework Decision 2009/315/JHA

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on European Union, and in particular Articles 31 and 34(2) (c) thereof,

Having regard to the Council Framework Decision 2009/315/JHA of 26 February 2009 on the organisation and content of the exchange of information extracted from the criminal record between Member States ⁽¹⁾, and in particular Article 11(4) thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the European Parliament ⁽²⁾,

Whereas:

- (1) Article 29 of the Treaty on European Union states that the Union's objective is to provide citizens with a high level of safety in the area of freedom, security and justice. This objective presupposes the systematic exchange between the competent authorities of the Member States of information extracted from criminal records in a way that would guarantee its common understanding and the efficiency of such exchange.
- (2) Information on convictions handed down against Member States' nationals by other Member States does not circulate efficiently on the current basis of the European Convention on Mutual Assistance in Criminal Matters of 20 April 1959. Therefore, there is a need for more efficient and accessible procedures of exchange of such information at European Union level.
- (3) The need to improve the exchange of information on convictions was prioritised in the European Council Declaration on Combating Terrorism of 25 and 26 March 2004 and was subsequently reiterated in the Hague

¹ OJ No. L 13, 20.1.2004, p.44

¹ See page 23 of this Official Journal.

² Opinion delivered on 9 October 2008 (not yet published in the Official Journal)

Programme ⁽³⁾ and in the Action Plan ⁽⁴⁾ on its implementation. Furthermore, the computerised interconnection of criminal records at European Union level was recognised as a political priority by the European Council in its Conclusions of 21 and 22 June 2007.

- (4) The computerised interconnection of criminal records is part of the E-Justice project, which was acknowledged as a priority by the European Council several times in 2007.
- (5) A pilot project is currently being developed with a view to interconnecting criminal records. Its achievements constitute a valuable basis for further work on computerised exchange of information at the European Union level.
- (6) This Decision aims to implement Framework Decision 2009/315/JHA in order to build and develop a computerised system of exchange of information on convictions between Member States. Such a system should be capable of communicating information on convictions in a form which is easily understandable. Therefore, a standardised format allowing information to be exchanged in a uniform, electronic and easily computer-translatable way as well as any other means of organising and facilitating electronic exchanges of information on convictions between central authorities of Member States should be set up.
- (7) This Decision is based on the principles established by Framework Decision 2009/315/JHA and applies and supplements those principles from a technical standpoint.
- (8) The categories of data to be entered into the system, the purposes for which the data is to be entered, the criteria for its entry, the authorities permitted to access the data, and some specific rules on protection of personal data are defined in the Framework Decision 2009/315/JHA.
- (9) Neither this Decision nor Framework Decision 2009/315/JHA establishes any obligation to exchange information about non-criminal rulings.
- (10) Since the objective of this Decision is not to harmonise national systems of criminal records there is no obligation for a convicting Member State to change its internal system of criminal records as regards the use of information for domestic purposes.
- (11) The European Criminal Records System (ECRIS) is a decentralised information technology system. The criminal records data should be stored solely in databases operated by Member States, and there should be no direct online access to criminal records databases of other Member States. Member States should bear the responsibility for the operation of national criminal records databases and for the efficient exchanges of information between themselves. The common communication infrastructure of ECRIS should be initially the Trans European Services for Telematics between Administrations (S-TESTA) network. All expenditure concerning the common communication infrastructure should be covered by the general budget of the European Union.
- (12) The reference tables of categories of offences and categories of penalties and measures provided for in this Decision should facilitate the automatic translation and should enable the mutual understanding of the information transmitted by using a system of codes. The content of the tables is the result of the analysis of the needs of all 27 Member States. That analysis took into account the pilot project categorisation and the results of the

³ OJ C 53, 3.3.2005, p. 1.

⁴ OJ C 198, 12.8.2005, p. 1.

clustering exercise of various national offences and penalties and measures. Moreover, in case of the table of offences, it also took into consideration the existing harmonised common definitions on the European and international level as well as the Eurojust and Europol data models.

- (13) In order to ensure the mutual understanding and transparency of the common categorisation, each Member State should submit the list of national offences and penalties and measures falling in each category referred to in the respective table. Member States may provide a description of offences and penalties and measures and, given the usefulness of such description, they should be encouraged to do so. Such information should be made accessible to Member States.
- (14) The reference tables of categories of offences and categories of penalties and measures provided for in this Decision are not designed to set up legal equivalences between offences and penalties and measures existing at national level. They are a tool aimed at helping the recipient to gain better understanding of the fact(s) and type of penalty(ies) or measure(s) contained in the information transmitted. The accuracy of the codes mentioned cannot be fully guaranteed by the Member State supplying the information and it should not preclude the competent authorities in the receiving Member State from interpreting the information.
- (15) The reference tables of categories of offences and categories of penalties and measures should be revised and updated in accordance with the procedure for the adoption of implementing measures for decisions provided for in the Treaty on European Union.
- (16) Member States and the Commission should inform and consult one another within the Council in accordance with the modalities set out in the Treaty on European Union, with a view to drawing up a non-binding manual for practitioners which should address the procedures governing the exchange of information, in particular modalities of identification of offenders, common understanding of the categories of offences and penalties and measures, and explanation of problematic national offences and penalties and measures, and ensuring the coordination necessary for the development and operation of ECRIS.
- (17) In order to accelerate the development of ECRIS, the Commission should adopt a number of technical measures to assist Member States in preparing the technical infrastructure for interconnecting their criminal records databases. The Commission may provide reference implementation software, namely appropriate software enabling Member States to make this interconnection, which they may choose to apply instead of their own interconnection software implementing a common set of protocols enabling the exchange of information between criminal records databases.
- (18) Council Framework Decision 2008/977/JHA of 27 November 2008 on the protection of personal data processed in the framework of police and judicial cooperation in criminal matters ⁽¹⁾ should apply in the context of computerised exchange of information extracted from criminal records of Member States, providing for an adequate level of data protection when information is exchanged between Member States, whilst allowing for Member States to require higher standards of protection to national data processing.
- (19) Since the objective of this Decision, namely the development of a computerised system for the exchange of information on convictions between Member States, cannot be adequately achieved by the Member States unilaterally, and can therefore, by reason of the necessity for

¹ OJ L 350, 30.12.2008, p. 60.

coordinated action in the European Union, be better achieved at the level of the European Union, the Council may adopt measures, in accordance with the principle of subsidiarity referred to in Article 2 of the Treaty on European Union and set out in Article 5 of the Treaty establishing the European Community. In accordance with the principle of proportionality, as set out in the Article 5 of the Treaty establishing the European Community, this Decision does not go beyond what is necessary in order to achieve that objective.

- (20) This Decision respects fundamental rights and observes the principles recognised in particular by Article 6 of the Treaty on European Union and reflected by the Charter of Fundamental Rights of the European Union,

HAS DECIDED AS FOLLOWS:

Article 1

Subject matter

This Decision establishes the European Criminal Records Information System (ECRIS).

This Decision also establishes the elements of a standardised format for the electronic exchange of information extracted from criminal records between the Member States, in particular as regards information on the offence giving rise to the conviction and information on the content of the conviction, as well as other general and technical implementation means related to organising and facilitating the exchange of information.

Article 2

Definitions

For the purposes of this Decision, the definitions laid down in Framework Decision 2009/315/JHA shall apply.

Article 3

European Criminal Records Information System (ECRIS)

1. ECRIS is a decentralised information technology system based on the criminal records databases in each Member State. It is composed of the following elements:
 - (a) an interconnection software built in compliance with a common set of protocols enabling the exchange of information between Member States' criminal records databases;
 - (b) a common communication infrastructure that provides an encrypted network.
2. This Decision is not aimed at establishing any centralised criminal records database. All criminal records data shall be stored solely in databases operated by the Member States.
3. Central authorities of the Member States referred to in Article 3 of Framework Decision 2009/315/JHA shall not have direct online access to criminal records databases of other Member States. The best available techniques identified together by Member States with the support of the Commission shall be employed to ensure the confidentiality and integrity of criminal records information transmitted to other Member States.

4. The interconnection software and databases storing, sending and receiving information extracted from criminal records shall operate under the responsibility of the Member State concerned.
5. The common communication infrastructure shall be the S-TESTA communications network. Any further developments thereof or any alternative secure network shall ensure that the common communication infrastructure in place continues to meet the conditions set out in paragraph 6.
6. The common communication infrastructure shall be operated under the responsibility of the Commission, and shall fulfil the security requirements and thoroughly respond to the needs of ECRIS.
7. In order to ensure the efficient operation of ECRIS, the Commission shall provide general support and technical assistance, including the collection and drawing up of statistics referred to in Article 6(2) (b) (i) and the reference implementation software.
8. Notwithstanding the possibility of using the European Union financial programmes in accordance with the applicable rules, each Member State shall bear its own costs arising from the implementation, administration, use and maintenance of its criminal records database and the interconnection software referred to in paragraph 1.

The Commission shall bear the costs arising from the implementation, administration, use, maintenance and future developments of the common communication infrastructure of ECRIS, as well as the implementation and future developments of the reference implementation software.

Article 4

Format of transmission of information

- (1) When transmitting information in accordance with Article 4(2) and (3) and Article 7 of Framework Decision 2009/315/JHA relating to the name or legal classification of the offence and to the applicable legal provisions, Member States shall refer to the corresponding code for each of the offences referred to in the transmission, as provided for in the table of offences in Annex A. By way of exception, where the offence does not correspond to any specific sub-category, the 'open category' code of the relevant or closest category of offences or, in the absence of the latter, an 'other offences' code, shall be used for that particular offence.

Member States may also provide available information relating to the level of completion and the level of participation in the offence and, where applicable, to the existence of total or partial exemption from criminal responsibility or to recidivism.

- (2) When transmitting information in accordance with Article 4(2) and (3) and Article 7 of Framework Decision 2009/315/JHA relating to the contents of the conviction, notably the sentence as well as any supplementary penalties, security measures and subsequent decisions modifying the enforcement of the sentence, Member States shall refer to the corresponding code for each of the penalties and measures referred to in the transmission, as provided for in the table of penalties and measures in Annex B. By way of exception, where the penalty or measure does not correspond to any specific subcategory, the 'open category' code of the relevant or closest category of penalties and measures or, in the absence of the latter, an 'other penalties and measures' code, shall be used for that particular penalty or measure.

Member States shall also provide, where applicable, available information relating to the nature and/or conditions of execution of the penalty or measure imposed as provided for in the parameters of Annex B. The parameter "non-criminal ruling" shall be indicated only in cases where information on such a ruling is provided on a voluntary basis by the Member State of nationality of the person concerned, when replying to a request for information on convictions.
